NOTIFICATION.

No. 2150L.—30th July, 1932.—His Excellency the Governor having been pleased to order, under rule 18 of the Bengal Legislative Council Rules, 1920, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill with the Statement of Objects and Reasons is accordingly hereby published for general information.

THE BENGAL CRIMINAL LAW SECOND AMENDMENT BILL, 1932.

A

BILL

further to amend the Bengal Criminal Law Amendment Act, 1925.

WHEREAS it is expedient further to amend the Bengal Criminal Law Amendment Act, 1925 ;

AND WHEREAS the previous sanction of the Governor-General has been obtained under sub-section (*3*) of section 80A of the Government of India Act to the passing of this Act ; 5 & 6 Geo. V, c. 61 ; 6 & 7 Geo. V, c. 37 ; 9 & 10 Geo. V, c. 101.

It is hereby enacted as follows :—

Short title.

1. This Act may be called the Bengal Criminal Law Second Amendment Act, 1932.

Amendment of section 4 of the Bengal Criminal Law Amendment Act, 1925.

2. To section 4 of the Bengal Criminal Law Amendment Act, 1925 (hereinafter referred to as the said Act), the following sub-section shall be added, namely :—

"(*4*) At any time before the commencement of the trial of any person under this Act, the Local Government may, by an order in writing stating the reasons therefor, withdraw the case of such person from the Commissioners appointed for the trial and transfer it for trial to three other Commissioners appointed in this behalf."

Amendment of section 6.

3. To sub-section (*1*) of section 6 of the said Act the following proviso shall be added, namely :—

"Provided that where the Commissioners convict any person of any offence punishable under the first paragraph of section 307 of the Indian Penal Code, committed after the commencement of the Bengal Criminal Law Second Amendment Act, 1932, they may pass on such person a sentence of death or of transportation for life." Act XLV of 1860. [*Cf.* Ordinance No. XI of 1931, s. 27; IX of 1932, s. 5.]

Insertion of new sections 8A and 8B.

4. After section 8 of the said Act the following sections shall be inserted, namely :—

Power to exclude persons or public from precincts of Court in certain trials.

"8A. (*1*) In any trial by Commissioners appointed under this Act, the Commissioners may, if they think fit, order at any stage of the trial that the public generally or any particular person shall not have access to, or be or remain in, the room or building used by the Court. [*Cf.* Ordinance No. IX of 1932, s. 6.]

(*2*) Where in the course of any such trial, the Advocate-General certifies in writing to the Court that it is expedient in the interests of the public peace or safety, or of the peace or safety of any of the witnesses in the trial that the public generally should not have access to, or be or remain in, the room or building used by the Court, the Court shall order accordingly.

Power to deal with refractory accused.

8B. (*1*) Where any accused, in a trial by Commissioners appointed under this Act, has by his voluntary act rendered himself incapable of appearing before the Court or resists his production before it, or behaves before it in a persistently disorderly manner, the Court may, at any stage of the trial, by order in writing made after such inquiry [*Cf.* Ordinance No. IX of 1932, s. 7.]

The Bengal Criminal Law Second Amendment Bill, 1932.

(*Clause 5.*)

as it may think fit, dispense with the attendance of such accused for such period as it may think fit, and proceed with the trial in his absence.

(*2*) Where a plea is required in answer to a charge from an accused whose attendance has been dispensed with under sub-section (*1*), such accused shall be deemed not to plead guilty.

(*3*) An order under sub-section (*1*) dispensing with the attendance of an accused shall not affect his right of being represented by a pleader at any stage of the trial, or of being present in person if he has become capable of appearing or appears in Court and undertakes to behave in an orderly manner.

(*4*) Notwithstanding anything contained in the Code of Criminal Procedure, 1898, no finding, sentence or order passed in a trial by Commissioners appointed under this Act shall be held to be illegal by any Court by reason of any omission or irregularity whatsoever arising from the absence of any or all of the accused whose attendance has been dispensed with under sub-section (*1*)." Act V of 1898.

Amendment of First Schedule.

5. In clause (*a*) of the First Schedule to the said Act *for* the figures "148" the figures and letter "121, 121A, 122, 123, 148, 216" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

Experience has shown that the Bengal Criminal Law Amendment Act, 1925, is defective in some respects and it is proposed to make certain amendments in that Act in order to cure these defects.

2. Short notes on the different clauses are given below.

Clause 2.—The necessity for this amendment has arisen in connection with the Chittagong Armoury Raid case. Before the trial of that case commenced notifications were issued by Government under sections 2 and 4 of the Bengal Criminal Law Amendment Act directing that certain persons should be tried by Commissioners and appointing certain persons as Commissioners to try those persons. Of the persons named in the notification, a certain number had not been arrested at the time of the commencement of the trial and are still at large. Government are advised that in view of the notifications referred to, the persons named in them can be tried only by the Commissioners originally appointed for their trial and that it would be illegal to appoint a fresh tribunal for their trial. They are, however, of opinion that it would not be fair to the remaining accused, if and when arrested, that they should be tried by Commissioners who have already formed an opinion on the same set of facts which would be taken in evidence in any subsequent trial in connection with the same offence. Nor would it be convenient from a practical point of view to reassemble the same Commissioners for such a supplementary trial.

Clause 3.—This reproduces the proviso to section 27 of the Bengal Emergency Powers Ordinance, 1931, and section 5 of the Bengal Emergency Powers Ordinance, 1932, both of which were made applicable to trials by Commissioners appointed under the Bengal Criminal Law Amendment Act. It is considered desirable in present conditions in this province to include a provision of this deterrent nature in the present Bill.

Clause 4.—Provides for the insertion of two new sections, 8A giving power to a Court constituted under the Bengal Criminal Law Amendment Act, 1925, to exclude persons or the public from the precincts of a Court, and 8B giving power to deal with refractory accused.

8A repeats the substance of section 36 of the Bengal Emergency Powers Ordinance, 1931, which by section 41 of the same Ordinance was made applicable to trials by Commissioners under the Bengal Criminal Law Amendment Act and also of section 7 of the Bengal Emergency Powers Ordinance, 1932. Present conditions are such that it is considered desirable and advisable that a Court should enjoy these powers.

Clause 8B repeats the substance of section 37 of the Bengal Emergency Powers Ordinance, 1931, section 48 of the Emergency Powers Ordinance, II of 1932, and section 7 of the Bengal Emergency Powers Ordinance, 1932. The provisions of the clause in the Ordinance of 1931 were made applicable by section 41 of that Ordinance to trials held under the Bengal Criminal Law Amendment Act and again, when that Ordinance lapsed, by section 7 of the new Ordinance, IX of 1932. Experience, especially that of the Chittagong Armoury Raid case, has shown that special powers are required by Courts to deal with a class of accused whose only object is to prolong the proceedings, to harass witnesses, and generally to bring the administration of justice into contempt.

Clause 5 adds sections 121, 121A, 122, 123 and 216 of the Indian Penal Code to the list of sections mentioned in Schedule I of the Bengal Criminal Law Amendment Act, 1925. These sections were added to the First and Second Schedules of the Bengal Criminal Law Amendment Act, 1930, by the Bengal Criminal Law Amendment Act of 1932 (Bengal Act IV of 1932). The Act of 1930 forms the preventive side of legislation against terrorism and it is now desired to have these sections added to the Schedule of Offences attached to the Bengal Criminal Law Amendment Act of 1925 which contain the penal side of such legislation. That the absence of these sections from Schedule II of the Act of 1925 is a serious defect was very apparent in connection with the trial of the Chittagong Armoury Raid case.

District Magistrate in Calcutta.

22. In the event of this Chapter being extended to the Presidency-town of Calcutta, then for the purposes of this Chapter "District Magistrate" shall mean, in that town, the Commissioner of Police. [*Cf.* Ord. No. XI of 1931, s. 22.]

(*4*) Notwithstanding anything contained in the Code, no finding, sentence or order passed in a trial before a Special Magistrate shall be held to be illegal by any Court by reason of any omission or irregularity whatsoever arising from the absence of any or all of the accused whose attendance has been dispensed with under sub-section (*1*).

[*Cf.* Ord. No. XI of 1931, s. 40.]

THE SCHEDULE.

[*See* Section 2 (*o*).] [*Cf.* Ord. No. XI of 1931, The Schedule.]

(*a*) Any offence punishable under any of the following sections of the Indian Penal Code, namely, sections 121, 121A, 122, 123, 148, 212, 216, 216A, 302, 304, 307, 324, 326, 327, 329, 332, 333, 385, 386, 387, 392, 394, 395, 396, 397, 398, 399, 400, 401, 402, 431, 435, 436, 437, 438, 440, 454, 455, 457, 458, 459. 460 and 506; Act XLV of 1860.

(*b*) any offence under the Explosive Substances Act, 1908; VI of 1908.

(*c*) any offence under the Indian Arms Act, 1878; XI of 1878.

(*d*) any attempt or conspiracy to commit, or any abetment of, any of the above offences.

STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to grant special powers to the Local Government to suppress terrorist crime when the existing powers granted by Ordinance No. IX of 1932 and Ordinance No. X of 1932 have lapsed with the expiry of those Ordinances on 27th November, 1932, and 29th December, 1932, respectively.

The Bill follows closely on the lines of the Bengal Emergency Powers Ordinances XI of 1931 and IX of 1932, and there is no marked departure from the provisions of these Ordinances except that the power to constitute special tribunals conferred by Ordinance No. XI of 1931, but not by Ordinance No. IX of 1932, has been dropped.

The Bill is divided into two chapters. The first chapter provides for the emergency powers which experience has shown to be necessary to cope with terrorist activities. It extends in the first instance only to the district of Chittagong where recent events have shown that absconders in the Chittagong Armoury case are still in hiding—but any or all of its provisions may be extended to any other area in Bengal by the Governor in Council.

The second chapter provides for Courts of Special Magistrates for the speedier trial of offences in furtherance of or in connection with the terrorist movement and for the hearing of appeals from the judgments of such Courts. As these Courts have been found very useful in dealing with offences against the Arms and Explosive Substances Acts by terrorists, political dacoities and other terrorist crimes, Chapter II extends to the whole of Bengal.

In paragraph (*a*) of the Schedule sections 212, 216A, 307 and 324 of the Indian Penal Code have been added in order to make it more complete.

II. **Progress of agricultural operations.**—Preparatory tillage for winter paddy and of its sowing in seed-beds continued favourably. Reaping of low-land jute commenced in some districts of East Bengal.

III. **State of standing crops.**—Standing crops generally thrived well.

IV. **Prospects and probable outturn.**—The outlook of deep-water paddy and sugarcane is favourable, on the whole. A satisfactory outturn of autumn paddy may be expected.

V. **Damage to standing crops.**—No appreciable damage to standing crops was reported from any part of the Province.

VI. **Condition of agricultural stock.**—The condition of live-stock was, on the whole, fair. Sporadic cases of cattle-disease, however, were reported from ten districts of the Province.

VII. **Failure of pasturage and fodder.**—The supply of fodder was reported to be generally sufficient.

VIII. **Prices of food-grains.**—During the second fortnight of the month, the retail prices of common rice of the cheapest quality rose in seven districts, fell in seven and remained stationary in the rest of the Presidency. The prices varied from 15½ seers per rupee in Midnapore to 10 seers in Darjeeling and the Chittagong Hill Tracts.

IX. **Condition of agricultural population.**—The condition of the agricultural population is not satisfactory owing to fall in the prices of jute and other staples. Distress prevails in parts of Rangpur, Bogra, Pabna and Mymensingh, where test and other relief works are continuing.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 27th July 1932.

Forecast of the Summer Til (Sesamum) crop of Bengal, 1932-33.

(NOTE.—On an average of the five years ending 1929-30, the area under til in Bengal has represented some 2·6 per cent. of the total area under til in British India.)

Character of the season.—At the outset the weather was not favourable for sowing and for the early period of growth. Good weather which prevailed from the middle of April helped the subsequent germination and growth, especially in the important districts of Mymensingh, Faridpur and Tippera. On the whole the season was a satisfactory one for the crop.

Acreage.—The area sown this year is estimated at 109,900 acres as against 111,700 acres last year.

Outturn.—From the District Officers' estimates the average outturn of the crop for the Province works out at 82 per cent. of the normal this year as against 70 per cent. last year.

Taking the normal yield as 7⅛ maunds per acre, the gross outturn of the crop for the Province is estimated at about 24,500 tons this year as against 17,200 tons last year or an increase of about 42 per cent. over last year.

Director of Agriculture, Bengal (offg.).

It is with deep regret that the Governor in Council has to record the death at the hands of a revolutionary of yet another officer, Mr. E. B. Ellison, Additional Superintendent of Police, Tippera, who died at Dacca on the 5th August as a result of a murderous attack made on him at Comilla on the 29th July 1932.

Mr. Ellison having joined the Indian Police Service in Bengal in December 1922, was in the 10th year of his service at the time of his death. After completion of his training at the Police College, Sardah, he was posted to Bankura as an Assistant Superintendent of Police in July 1924. Thereafter he served as an Assistant Superintendent of Police in several districts till March 1929, when he was posted to Bankura as officiating Superintendent of Police of that district. He was Superintendent of Police, Jessore, from December 1929 to January 1931, when he was posted to Dacca as Additional Superintendent of Police of that district. Resolution on the Report on the Police Administration in the town of Calcutta and its suburbs for the year 1931.

GOVERNMENT OF BENGAL.

Police Department.

CALCUTTA, THE 2ND AUGUST 1932.

RESOLUTION—No. 3516Pl.

Read—

The Report on the Police Administration in the town of Calcutta and its suburbs for the year 1931.

The office of the Commissioner of Police was held from 1st January to 4th March by Sir Charles Tegart and from the 5th March to the end of the year by Mr. L. H. Colson, I.P.

2. **Strength.** — The sanctioned strength of the Calcutta Police at the close of the year was, 5,658, a decrease of 89 as compared with last year's figure. The number of resignations was 18 against 51 in the previous year. There was a decrease of 5 in the number of vacancies at the end of the year, and the Governor in Council is pleased to note that the revised rates of pay continue to attract a better type of recruit to the force. His Excellency in Council also observes with satisfaction that, in spite of the continuous strain placed upon all ranks owing to the civil disobedience movement and its after effects, there was a further improvement in the health of the force during the year, the average daily percentage of the sick falling from 1·92 to 1·52.

3. **Housing.**—The Commissioner of Police has again remarked on the unsatisfactory condition of the police buildings in the suburban areas and the necessity for their early improvement. His Excellency in Council regrets that improvement in this direction should still be held up owing to financial stringency.

4. **Discipline.**—A good standard of discipline continued to be maintained and the small number of cases in which judicial punishments were inflicted on members of the force, or in which orders of dismissal or degradation were passed, is noticeable.

5. **Crime statistics.**—There was a substantial all round decrease in the total number of cognisable cases reported to the police during the year. The marked fall in the number of rioting cases, which was 18 against 103 in the previous year, was due to the calling off of the civil disobedience movement.

The Detective Department as usual rendered valuable assistance to the local police and investigated a number of difficult cases very successfully. His Excellency in Council notes with pleasure the smart work done by the special detective staff of the Port Police in detecting a number of arms smuggling cases and in arresting a number of terrorists with unlicensed firearms in their possession.

6. **Revolutionary crime, seditious speeches and meetings.**—Terrorist activities continued throughout the year. Mr. R. R. Garlick, District and Sessions Judge, 24-Parganas, was murdered in his court-room, an attempt was made on the life of Mr. Villiers, President of the European Association, Bengal, and one Ashutosh Neogi, who had given important evidence for the Crown in an armed dacoity case, was murdered. As in the previous year, the Indian press not only continued its support of the Congress but also with a few exceptions its campaign of eulogy of political murderers. It is significant that a representative and responsible body like the Corporation of Calcutta passed a resolution expressing its "sense of grief" at the execution of Dinesh Gupta, one of the murderers of Colonel Simpson, Inspector-General of Prisons. There were a number of prosecutions for seditious speeches and no less than 75 publications were proscribed. The circulation of communist literature continued.

7. **Public order.**—Throughout the year, picketing was continued with varying intensity, and there were frequent *hartals*, processions and public meetings in furtherance of the Congress campaign against Government, while the difficulties of the situation were in no wise diminished by the Irwin-Gandhi agreement which tied the hands of the authorities but was utilised by Congress as an opportunity to reorganise and

prepare for fresh activities. The most disquieting feature of the situation was the constant extolling of political assassins as martyrs and heroes by the press and nationalist leaders, while on the other side the murders themselves and the way in which murderers were eulogised naturally evoked intense feelings of indignation especially among the European community. Added to this was the general lawlessness which was an aftermath of the Civil Disobedience Movement.

The burden which in this tense political atmosphere was placed on the shoulder of the police in 1931 was thus a heavy one. His Excellency takes this opportunity of expressing his high appreciation of the steadfastness, loyalty, courage and devotion displayed by all ranks of the force in the discharge of their duties in such difficult circumstances.

8. **Traffic.**—The general trade depression was reflected in the returns of the Motor Vehicles Branch. The registration of private cars alone dropped by one-third. Only 46 new taxi-cabs were registered in 1931 as compared with 122 and 263 in the two previous years and only 106 new motor omnibuses as compared with 168 and 226. It is satisfactory that considerably fewer cases under the Motor Vehicles Act were pending at the close of the year than there were in 1930.

9. **Commendation of officers.**—His Excellency in Council is gratified to read the tributes paid by Mr. Colson to his Deputy Commissioners, Assistant Commissioners and other subordinate officers. 1931 was less fraught with violence than 1930, but the situation was never free from anxiety, and the Calcutta public may well be grateful to all ranks of the Calcutta Police force for their constant vigilance and for the care and attention which they devoted to their duties. The thanks of Government are due to Mr. Colson for maintaining the high standard of efficiency which he inherited from his predecessor.

ORDER.—Ordered that a copy of this resolution be forwarded to the Commissioner of Police, Calcutta, the Chief Presidency Magistrate, Calcutta, and the Commissioner of the Presidency Division, for information.

Ordered also that a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the resolution be published in the *Calcutta Gazette*.

Resolution on the Report of the Director of Public Health, the Sanitary Board and the Chief Engineer, Public Health Department, for the year 1930.

GOVERNMENT OF BENGAL.

Local Self-Government Department.

Public Health.

CALCUTTA, THE 8TH AUGUST 1932.

RESOLUTION—No. 1698 P.H.

Minister-in-charge: The Hon'ble Mr. Bijoy Prasad Singh Roy.

Read—

The Report of the Director of Public Health, the Sanitary Board and the Chief Engineer, Public Health Department, for the year 1930.

Vital statistics.—The vital statistics per mille in the Report on Public Health for 1930 are still based on the census figures for 1921, an anachronism necessitated by the want of any reliable data for annual adjustment of the figures for population. The preliminary census returns for 1931 illustrate the margin of error in the annual vital statistics referred to in this Resolution last year. The population of Bengal, excluding the Chittagong Hill Tracts, appears in the 1931 census as 49,909,363 against 46,522,293 in the census of 1921 showing an increase of 3,387,070.

The increase in population for the same area during the same period derived from the annual returns of births and deaths is only 1,463,471. Local movements of population in and out of the province affect the figures for increased population, but cannot by any stretch be made to cover more than a small fraction of this difference between the census and registration results. Defective as the annual returns are known to have been, especially where responsibility for them has been transferred from the police to presidents of union boards, a margin of error of over 100 per cent. on the registration figures for increased population brings prominently to notice the seriousness of their defects. Reduced to an annual margin of error on births the figures are not quite so surprising as they seem at first sight, but they do mean approximately that the increase of population in 1930, as in previous years, may or may not have been at least double and in some years must have been more than double that reported by the Director of Public Health on the basis of registration returns. Or, to particularise further, the figures for 1930 (viz., births 1,237,931, deaths 1,044,256, increase of population 193,675) are in all probability vitiated by a defect of error between 10 and 20 per cent. on the reported births. This inaccuracy can only be overcome by insistent pressure on presidents of union boards and municipal authorities and rural and urban sanitary inspectors to discharge more effectively the unattractive but important routine duties of verifying birth and death returns subject to this general inaccuracy. The figures for 1930 show a decrease of 123,347 births and of 50,007 deaths on those for 1929; and it appears that apart from Calcutta the seven districts showing an excess of deaths over births in 1930 comprise a block in the centre of the province from Jessore to Dinajpur. It is noticeable that they do not include any in the Burdwan Division.

Infant mortality.—It cannot be said that on the statistics for the province as a whole there has been much improvement in infant mortality. The total number of deaths reported under one year of age decreased from 244,000 to 231,000; but the rate per thousand births rose from 179·9 to 187·3. The maternity welfare work conducted by the Health Department of the Calcutta Corporation and by a voluntary association in Dacca continues to show what can be done in urban areas by the necessary organisation with a permanent paid staff. There are movements in the same direction in one or two district headquarters towns ; but for the most part maternity welfare work even in municipal areas does not go much beyond the annual baby week with its lectures and exhibitions, of which there were 180 in this year, and the local training of dais; while in the rural areas it is still more difficult to effect much practical impression. The number of dai training classes outside Calcutta and Dacca increased to 98 and of dais attending to 1,113—less than one dai given elementary training per 1,000 births in the year. But though the actual figures are still far

from encouraging, the fact remains that the consciousness of the need for maternity welfare work exists and is on the increase throughout the province.

Cholera.—The statistics for cholera and small-pox continue to show parallel features. The year 1928 was a peak year for both, and the sharp decrease appearing in 1929 was continued in 1930. The deaths from cholera were 54,963 as against 81,090 in 1929, and had fallen from twice the quinquennial average in 1928 to 33 per cent. below the quinquennial average. It would be interesting to know whether the curve of the decline compared with that of earlier epidemics can be brought into any specific relation with the use of the new methods of inoculation now so readily accepted where cholera is prevalent. Dacca was the only district which did not share in the decrease of cholera. As usual the public health resources of the district boards were supplemented as occasion required by advice and assistance from the Public Health Department to cope with local epidemics. 1,184,415 cubic centimetres of anti-cholera vaccine were issued against 1,718,610 in the previous year and 1,021,541 inoculations performed against 1,566,150. 82,100 wells and 28,840 tanks were also disinfected over and above 2,982 river ghats and other sources of water. The Public Health Department also organised the provision of facilities for inoculation against cholera of pilgrims proceedings to the important festivals, such as the Kumbh Mela, the Puri Rathjatra and the Ganga Sagar Mela. The continued absence of cholera at the Ganga Sagar Mela is a conspicuous instance of what can be done for public health on these occasions by the organised co-operation of district board and Public Health Department.

Small-pox.—There were 3,150 deaths from small-pox in towns and 8,118 in rural areas against 1,003 and 19,404, respectively, in the previous year. The respective death-rates were 1·01 and ·19 against ·32 and ·44 in 1929, showing an increase of 215·6 per cent. in towns and a decrease of 56·8 per cent. in rural areas. With the downward curve continuing small-pox was a comparatively small factor in the mortality in rural areas for 1930, but if the Director of Public Health is correct in forecasting the trend of this epidemic, the figures should soon be on the rise again. Unfortunately the figures for infant vaccination were allowed to fall off with the decrease of the epidemic—only 253 infants per 1,000 births being successfully vaccinated during the year as against 280 in the previous year. The Director of Public Health reports that nine municipalities including two with a large labour population carried out no vaccination in 1930, a failure which requires further investigation. The vaccination statistics for the province show a decrease throughout (except under the head of children between one year and six years); but this was perhaps inevitable in view of the marked decrease in small-pox and the postponement for financial reasons of projects for universal vaccination of the population in a limited period.

Malaria and Kala-azar.—In last year's Resolution attention was drawn to the fact that mortality from malaria had been more than halved since the figures for the maximum year 1921, when 737,000 deaths were ascribed to this cause. There was an almost imperceptible reaction in 1930 with 336,879 deaths against 335,414 in the previous year. While, on the other hand, the returns under the other heads of fever which must probably include a certain amount of malaria showed a slight further decrease of 338,399 against 350,273. These figures certainly tend to strengthen the impression mentioned last year that some permanent result has been achieved by the intensive campaign against malaria in the last ten years in effecting a genuine reduction of this disease, though doubtless it will have its fluctuations in the future as in the past. The figures for death from kala-azar for the last three years have been stable with a very slight upward trend, the number of deaths from this cause in 1930 was 10,914 or 94 in excess of the previous year. At the same time the number of cases treated continues to decrease (110,017 in 1930) which is to be explained perhaps as well by variations in the number of special centres as in the prevalence of the disease.

Rural health units.—The scheme for the organisation of rural health units has now reached saturation point, with 575 sanitary inspectors or assistant health officers, each in charge of an area corresponding to a thana. The cost of the scheme to Government in

the year under review was Rs. 9,40,000 and it will be some time before the effect of incremental pay and expansion of activities brings the demand for grants up to the full allotment originally contemplated of Rs. 12,00,000. The working of these units has been mentioned in the Resolution on district boards, and it is sufficient for the purpose of this Resolution to mention the value of this additional force when occasion arises to mobilise all available resources under the direction of the Director of Public Health to cope with special emergencies. The district boards have, on the whole, shown great readiness to co-operate with the Director of Public Health in making the best use of rural sanitary inspectors and to accept his advice on the technical aspect of this organisation.

Educational Propaganda and Publicity.—Four hundred and eighty-six lectures on public health were delivered throughout the province by the publicity staff under the Public Health Department with or without lantern slides. The extensive health propaganda carried out by the staff resulted in the organisation by some district boards of their own propaganda departments under their respective Health Officers. It is hoped that when financial conditions improve other district boards will organise similar propaganda departments with a view to educating the rural people in public health matters.

Public health engineering.—In works of public health engineering it is the beginning and completion that counts and in this light the outstanding event of the year 1930 was the start made with the Bhatpara Sewerage Scheme estimated to cost Rs. 22,00,000. Otherwise the most important work under construction during the year, though not formally completed till after its close, was the Asansol Water-supply Scheme Rs. 4,50,000. Improvements in the water-supply of Dacca, Faridpur, Patuakhali and Bansberia municipalities were completed and a beginning was made with water-supply works at Chandpur, Narayanganj and English Bazar. Estimates were prepared in various stages for new works up to a total of Rs. 31,00,000, only a fraction of which, it is to be feared, will now materialise in sanction and expenditure. The criterion of activity afforded by actual expenditure during the year on works under construction under the supervision of the Chief Engineer does not however seem to have been provided for in the form of this officer's report and might be introduced.

Personal.—Dr. C. A. Bentley made over charge of the office of Director of Public Health during the year after a tenure of office of 15 years which has made an indelible impression on the public health record of Bengal. It would be difficult to say how much the whole spirit of public health work in this province owes to Dr. Bentley's personal impetus. He was succeeded by Dr. Khambata who has twice previously acted in this capacity: while Mr Griffin remained in charge of the post of Chief Engineer, Public Health Department. To both these officers the Minister desires to express his appreciation of the results of the year.

Resolution on the Annual Report of the Bengal Smoke Nuisances Commission for the year 1931.

GOVERNMENT OF BENGAL.

Commerce Department.

CALCUTTA, THE 5TH AUGUST 1932.

RESOLUTION—No. 4481Com.

Read—

The Annual Report of the Bengal Smoke Nuisances Commission for the year 1931.

The report records steady progress in the abatement of smoke in Calcutta and environs. During the year the Commission was able to secure a further reduction in the emission of daily black smoke; the average emission from each factory chimney, which, during the previous year was the equivalent of ·18 minutes of dense black smoke per hour, was reduced to ·08 minutes during the year. This is by far the lowest figure yet recorded.

The great increase in the number of the inspections and tests made for educational purposes, and the number of the cases observed, coupled with a decrease in the number of statutory warnings issued and the continued absence of prosecutions, testifies to the continuance of the good and useful work carried on by the Commission in co-operation with the interests concerned. It is unfortunate that owing to financial stringency it has not been possible for Government to give effect to several recommendations made by the Commission for increasing the scope of its activities.

The thanks of the Governor in Council are due to the members of the Commission, and to Mr. R. Grant, the Chief Inspector and Secretary, and his assistants for a successful year's work.

STATEMENT OF OBJECTS AND REASONS.

The Government of Bengal have decided that the provisions contained in section 4 (*4*) of the Bengal Motor Vehicles Tax Act, 1932, which limits the period of registration to the period for which the tax has been paid should not be enforced. The object of this sub-section was to facilitate the collection of the tax and other less drastic provisions have been inserted in this Bill.

2. Experience has shown that the effect of the acceptance of the amendment moved by Mr. C. G. Cooper to the First Schedule, substituting taxation by over-all measurement for taxation by seating capacity of private cars has been to place almost all private cars in the same category, so that large and powerful cars are paying no more than so-called "Baby" cars. The intention, when this amendment was accepted, was to have approximately the same scale of taxation as under the Calcutta Municipal Act, 1923, and opportunity is now being taken of effecting this. Certain reductions are also proposed in the scale of taxes to be paid by heavier motor cycles and by side cars, as it has been found that the existing tax presses heavily on the less wealthy owners.

3. It appears that the objects aimed at in sections 4 (*3*) and 11 of the Act were not covered by the wording adopted and amendments have been proposed to bring these sections into conformity with the intentions of the Legislative Council.

4. The other minor amendments proposed have been proved necessary by experience of the working of the Act.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 11th August 1932.

First Forecast of the Sugarcane Crop of Bengal, 1932-33.

(Note.—On an average of the five years ending 1930-31, the area under sugarcane in Bengal has represented some 7·0 per cent. of the total area under sugarcane in British India.)

Character of the season.—At the outset the weather was generally favourable for planting of the crop in East Bengal districts, while insufficient rainfall interfered with the progress of the operation in some West and North Bengal districts. Good weather which prevailed from the latter part of April helped germination and growth. The present prospects, so far, are reported to be satisfactory, on the whole.

Area planted.—The total area planted with sugarcane for the province is reported to be 229,000 acres this year as against 200,300 and 233,400 acres reported in the corresponding and final forecasts of last year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 9th August 1932.

First Forecast of the Cotton crops of Bengal, 1932-33.

(NOTE.—On an average of the five years ending 1930-31, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore. As the late crop has not yet been sown, this forecast deals only with the early crop.

Character of the season.—In Bankura, Mymensingh and Tripura State, the weather was generally favourable. In Mymensingh subsequent conditions were not so favourable, and the outturn therefore seems poor. In Midnapore and the Chittagong Hill Tracts the weather was not favourable, and the condition of the crop seeems to be fair for the former district only. The outturn is expected to be poor in the Chittagong Hill Tracts for want of timely rainfall. The condition of the crop at present is fair, on the whole.

Area sown.—The area sown is reported to be 74,345 acres this year as against 74,312 acres in the corresponding forecast of last year. The slight increase is due to general causes.

Director of Agriculture, Bengal (offg.).

CALCUTTA, THE 12TH AUGUST 1932.

RESOLUTION—No. 10272L.R.

Read—

The Report of the Board of Revenue on the administration of the Wards, Attached and Trust Estates in the Presidency of Bengal for the year 1337 B.S. (1930-31).

1. At the beginning of the year the number of estates under the management of the Court of Wards was 90. During the year nine new estates were brought under the charge of the court and one was released; thus the total number was 98 at the close of the year.

2. The total current demand due to the estates on account of rent and cesses was Rs. 1,55,39,565 and the arrear demand Rs. 1,93,68,227. The total sum collected was Rs. 1,20,26,246 or 34·4 per cent. of the total demand or 77·4 per cent. of the current demand against 41·3 per cent. or 88·2 per cent., respectively, in the preceding year. The heavy outstanding balances were mainly due to bad economic conditions.

3. The total amount of ascertained debt outstanding at the close of the year was Rs. 2,50·30 lakhs against Rs. 2,07·84 lakhs in the preceding year. This total includes Rs. 156 lakhs owed by three big estates. The principal and interest paid or otherwise reduced amounted to Rs. 26·46 lakhs and Rs. 15·17 lakhs, respectively. In 22 out of 26 estates for which schemes of repayment have been prepared, it has not been possible to reduce the debts to the extent provided in the schemes. The debts of the 62 estates, which still remain in debt, have been reduced on the average by about one quarter since they came under the court. Many of these estates have been taken charge of recently.

4. The percentage of cost of management on current rent and cess demand showed a satisfactory reduction, being 9·2 against 11.9 in the previous year. The law expenses rose to Rs. 7·98 lakhs from Rs. 6·65 lakhs in 1929-30.

5. The Governor in Council notices with satisfaction that nearly Rs. 4½ lakhs as against a little over Rs. 3½ lakhs in the preceding year was spent on education, dispensaries and works of improvement.

6. During the year under review, owing to the widespread economic distress and to the fall in the price of agricultural produce, collections were poor and in many cases Government revenue was in arrear and general and audit rates remained unpaid. The Board has however taken steps to avoid such arrears, and it is hoped that this will not recur in future.

7. The thanks of the Governor in Council are due to the Board of Revenue for the administration of the estates under the management of the Court of Wards. He also notices with pleasure the good work done by the Managers mentioned in the report.

By order of the Governor in Council,

H. C. V. PHILPOT,

Secy. to the Government of Bengal.

GOVERNMENT OF BENGAL.

Legislative Department.

NOTIFICATION.

No. 2478L.—18th August, 1932.—The following report of the Select Committee on the Bengal Suppression of Terrorist Outrages Bill, 1932, with the Bill as amended by the Committee, is hereby published for general information.

Report of the Select Committee on the Bengal Suppression of Terrorist Outrages Bill, 1932.

We, the members of the Select Committee of the Bengal Legislative Council, to which the Bengal Suppression of Terrorist Outrages Bill, 1932, was referred by a motion carried in the Bengal Legislative Council on the 9th August, 1932, have the honour to submit this our report with a copy of the Bill, as amended by us, annexed. All matter omitted by the Select Committee has been printed in italics and enclosed in square brackets, and all new matter inserted has been underlined.

1. The Bill was published in the *Calcutta Gazette* on the 4th August, 1932.

2. The Committee met for the first time on the 10th August, 1932, and finished detailed consideration of the Bill at meetings held on the 11th and 12th August, 1932.

3. We do not consider that the Bill has been so altered as to require republication.

4. We recommend that the Bill as amended be passed by the Council.

5. The following are principal changes made in the Bill :—

Clause 1(*2*).—This *sub-clause*, as modified, enables the Local Government to extend the provisions of Chapter I to any area in Bengal but avoids reference to any particular district.

Clauses 2(*c*) **and 3**(*2*).—Words have been added to make the intention clearer.

Clause 3(*1*).—The words inserted require that an officer must have reasonable grounds for suspicion before exercising the powers conferred by this clause.

Clause 4(*1*).—A *proviso* has been added requiring that reasonable notice and reasonable facilities for withdrawal must be given to persons occupying a building before possession is taken.

New Clause 5A.—*Sub-clause* (*3*) *of clause 4 and sub-clause* (*2*) *of clause 5* have been combined in this new clause for conciseness, and this provision for compensation has been put in a mandatory form.

Clause 9 (*1*) (*a*).—The words "or regulate" have been substituted as more appropriate.

Clause 12 (*a*).—*Sub-clause* (*a*) has been omitted on the ground that it gives an unnecessarily wide power, and might be so interpreted as to conflict with clause 11. It is considered that *sub-clauses* (*b*) *and* (*c*) provide adequately for such powers as might be required.

Clause 16.—*Sub-clauses* (*1*) *and* (*3*) have been so modified that the power of the District Magistrate to delegate powers under clause 4 (when he has been invested with such powers) has been restricted to a power to authorise the exercise of such powers "in a specified area or in connection with a specified operation or series of operations", and the District Magistrate is given a discretion as to the civil or military officers whom he will so authorise.

Clause 22.—The wording has been made more concise.

Clause 27 (*2*).—The period within which an appeal can be presented has been extended from seven to fifteen days as it is considered that the former period is too short.

Joint Minute of Dissent by Khan Bahadur Maulvi Azizul Haque, M.L.C., and Khan Bahadur Muhammad Abdul Momin, M.L.C.

We would sign the report subject to the following Minute of Dissent:—

In the *Explanation* of clause 14, delete the portion beginning with the words "and landlords" and ending with "actually reside therein".

Minute of Dissent by Babu Jitendralal Bannerjee, M.L.C.

There are two points, both with reference to clause 14, regarding which I should like to enter a word of dissent.

Where under clause 14 (*2*), a class or section of inhabitants are exempted from liability to pay any collective fine, it ought to be made perfectly clear that such exemption is based, not upon communal or racial considerations but simply or solely upon the consideration that the exempted class or community have had no connection with outrages of a terrorist nature.

Again, in the *Explanation* to clause 14, it ought to be made clear that it is only persons having some sort of residential connection with a local area—or who occupy house-property there by agents or servants—who ought to be made liable for the imposition of collective fines. Landlords, whose only connection with an area is rent-collection by means of non-resident agents, are not to be regarded as "inhabitants" within the meaning of the section.

A proviso should be added to clause 4 (*1*) laying down that the land or building (taken possession of by the Local Government under this clause) should not be so used as to wound the religious feelings of the owner or occupier thereof. This is all the more necessary in view of certain atrocious facts recently published in the newspapers, viz., of a Hindu house where cow-sacrifice was performed by Muhammadan soldiers (or police) in occupation.

Minute of Dissent by Raja Bhupendra Narayan Sinha Bahadur, of Nashipur, M.L.C.

I sign the report subject to the following Minute of Dissent:—

The time of the operation of the Act is not provided for in any of the clauses of the Bill. In the Statement of Objects and Reasons however it is laid down that the Bill when it becomes an Act will be put in operation with the expiry of the Ordinances IX and X of 1932.

I would also like to add the following proviso to clause 4 (*1*):—

"Provided that the land or the building does not contain any place for periodical or permanent worship."

In clause 10, I should like to add the following words after the words "within such limits":—

"as is compatible with his status and his position in life, his religious belief and sentiments as well as his physical capacity to do the work required for him".

In clause 14 (*3*), the words "and the degree of concern" be added after the word "means."

In *Explanation* of clause 14, for the words "or hold land or other immovable property" the words "any house" be substituted and the portion beginning with the words "and landlords" and ending with "actually reside therein" be deleted.

The reason for the insertion of the additional words is that generally people having a stake in the place are not involved or concerned in such turbulence, though as men of means they are most easy people to realize the fine. This is inequitable. Apportionment should be on the basis of responsibility for the trouble in addition to means.

My reason for this amendment is the definition of "inhabitants" is very wide. It is absurd to penalise a man living hundreds of miles away, specially landholders having merely some zamindary in the locality affected. This would be leaving a zamindar at the mercy of the Magistrate who may not know him at all.

Minute of Dissent by Rai Bahadur Kamini Kumar Das, M.L.C.

I sign the report subject to the following Minute of Dissent:—

I would also like to add the following provisos to clause 4 (*1*):—

"the land or building does contain any place for periodical or permanent worship"

In clause 10, after the words "may require any" insert "person" and delete the words beginning from "landholder" and ending with "educational institution," and after the words "may specify" add "provided such person is not prevented by extreme old age, health or disease from rendering the assistance required".

It is in fitness of things that all subjects of His Gracious Majesty should come forward to render such assistance as may be required of them provided they are not prevented by extreme old age, health or disease.

In clause 11, after the words "under this section" add "the Magistrate or the officer concerned may, after the search, give to the person concerned the substance of the information which led to the search".

The reason for this addition is that otherwise the position of inhabitants is becoming unbearable day by day as spies of irresponsible nature are often giving false information against persons who are their enemies which led to vexatious searches.

In the *Explanation* of clause 14, for the words "or hold land or other immovable property" the words "any house" be substituted and the portion beginning with the words "and landlords" and ending with "actually reside therein" be deleted.

My reason for this amendment is the definition of "inhabitants" is very wide. It is absurd to penalize a man living hundreds of miles away, specially landholders having merely some zamindary in the locality affected. This would be leaving a zamindar at the mercy of the Magistrate who may not know him at all.

Minute of Dissent by Maulvi Abul Kasem, M.L.C.

I would sign the report subject to the following Minute of Dissent:—

In clause 10, I should like to add the following words after the words "within such limits":—

"as is compatible with his status and his position in life, his religious belief and sentiments as well as his physical capacity to do the work required for him".

In the *Explanation* of clause 14, for the words "or hold land or other immovable property" substitute the words "any house," and delete the portion beginning with the words "and landlords" and ending with "actually reside therein".

Jurisdiction of Special Magistrates.

24. Where, in the opinion of the Local Government, or of the District Magistrate if empowered by the Local Government in this behalf, there are reasonable grounds for believing that any person has committed a scheduled offence not punishable with death in furtherance of or in connection with the terrorist movement, or an offence punishable under this Act, the Local Government or District Magistrate, as the case may be, may, by order in writing, direct that such person shall be tried by a Special Magistrate. [*Cf.* Ord. No.XI of 1931, s. 30.]

Procedure of Special Magistrates.

25. (*1*) In the trial of any case under this Act, a Special Magistrate shall follow the procedure prescribed by the Code for the trial of warrant cases by Magistrates: [*Cf.* Ord. No. XI of 1931, s. 31.]

Provided that the Special Magistrate shall make a memorandum only of the substance of the evidence of each witness examined, and shall not be bound to adjourn any trial for any purpose unless such adjournment is, in his opinion, necessary in the interests of justice:

Provided also that such Magistrate may, in trying any offence punishable under this Act follow the procedure prescribed in the Code for the summary trial of cases where no appeal lies.

(*2*) In matters not coming within the scope of sub-section (*1*), the provisions of the Code, so far as they are not inconsistent with this Chapter, shall apply to the proceedings of a Special Magistrate; and for the purposes of the said provisions the Special Magistrate shall be deemed to be a Magistrate of the first class.

26. A Special Magistrate may pass any sentence authorised by law, except a sentence of death or of transportation or imprisonment for a term exceeding seven years. [*Cf.* Ord. No. XI of 1931, s. 32.]

[*Cf.* Ord. No. XI of 1931, s. 34.]

[*Cf.* Ord. No. XI of 1931, s. 35.]

Provided that where in any case the Public Prosecutor or Advocate-General, as the case may be, certifies in writing to the Special Magistrate that it is expedient in the interests of the public peace or safety or of the peace or safety of any of the witnesses in the trial that the public generally should not have access to, or be or remain in, the room or building used by the Special Magistrate as a Court, the Special Magistrate shall order accordingly.

Powers of Special Magistrates to deal with refractory accused.

31. (*1*) Where any accused, in a trial before a Special Magistrate, has, by his voluntary act, rendered himself incapable of appearing before the Magistrate, or resists his production before the Magistrate, or behaves before the Magistrate in a persistently disorderly manner, the Magistrate may, at any stage of the trial, by order in writing made after such inquiry as he may think fit, dispense with the attendance of such accused for such period as he may think fit, and proceed with the trial in the absence of the accused. [*Cf.* Ord. No. XI of 1931, s. 37.]

(*2*) Where a plea is required in answer to a charge from an accused whose attendance has been dispensed with under sub-section (*1*), such accused shall be deemed not to plead guilty.

(*3*) An order under sub-section (*1*) dispensing with the attendance of an accused shall not affect his right of being represented by a pleader at any stage of the trial, or of being present in person if he has become capable of appearing, or appears before the Magistrate and undertakes to behave in an orderly manner.

(*4*) Notwithstanding anything contained in the Code, no finding, sentence or order passed in a trial before a Special Magistrate shall be held to be illegal by any Court by reason of any omission or irregularity whatsoever arising from the absence of any or all of the accused whose attendance has been dispensed with under sub-section (*1*).

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 17th August 1932.

Summary. –During the week rainfall was heavy in parts of Rajshahi and Chittagong Divisions and generally light to moderate elsewhere. More rain is needed to facilitate the transplanting operation of winter paddy which is progressing. The progress of transplantation, so far made, is behind the normal. Harvesting of autumn paddy, cutting, steeping and washing of jute are proceeding. Lack of water is being felt for steeping of jute in the high land tracts of Dacca and in parts of Rajshahi Divisions. The standing crops are in fairly satisfactory condition. Distress prevails in parts of Pabna where 320 persons attended the test relief works on the last day of week ending 13th August. The average price of common rice for the Province has risen by about 0·18 per cent. as compared with that of the previous week.

Resolution on the Budget Estimates of income and expenditure of the Howrah Bridge for the year 1932-33.

GOVERNMENT OF BENGAL.

Marine Department.

CALCUTTA, THE 16TH AUGUST 1932.

RESOLUTION—No. 2172 MNE

Read—

The budget estimates of income and expenditure of the Howrah Bridge for the year 1932-33.

Receipts.—The estimate of receipts for the year is placed at Rs. 3,16,340 against the budget and revised estimates of Rs 3,57,428 and Rs. 3,10,566, respectively, for the previous year. The estimate of receipts from the East Indian Railway is placed at Rs. 2,42,000 on the basis of the revised estimate for the preceding year.

The Bengal Nagpur Railway have contributed Rs. 26,000 towards the maintenance of the bridge during the year 1932-33.

Expenditure.—The estimate of total expenditure for the year is Rs. 3,42,769 against the budget and revised estimates of Rs. 4,75,464 and Rs. 3,81,331, respectively, for the preceding year. The main reductions in expenditure are under the head "Maintenance and Repairs" and under the head "Establishment" due principally to the amalgamation of the separate workshop hitherto maintained for the Howrah Bridge with the subsidiary workshop of the Port Commissioners, Calcutta, at the Calcutta jetties. No provision has been made for special expenditure during the year.

Resolved that the budget estimates for the year 1932-33 be approved under section 21 of the Howrah Bridge Act, 1871.

By order of the Governor in Council,

E. N. BLANDY,
Secy. to the Govt. of Bengal.

Provisional Contributory Provident Fund Rules (Bengal).

1. These rules shall come into force on the 1st April 1932, and shall apply to non-pensionable Government servants belonging to the services under the control of the Governor in Council, who have been admitted or who may be admitted hereafter to the benefits of Special Provident Funds sanctioned by the Government of India,

2. In these rules, unless there is anything repugnant in the subject or context:—

(i) Account Officer means the Accountant-General, Bengal,

(ii) Leave means any variety of leave recognised by the Fundamental Rules or the Civil Service Regulations or the leave specified in the contract, whichever may be applicable to the subscriber.

(iii) The Fund means the Special Provident Fund.

Payments towards Insurance Policies and Family Pension Funds.

3. Subject to the conditions contained in rules 4 to 10—

(*a*) (i) subscriptions to a family pension fund approved in this behalf by the Governor in Council,

(ii) payments towards an insurance policy may, at the option of a subscriber, be substituted for the whole or part of subscriptions to the Fund;

(*b*) the amount of subscriptions with interest thereon standing to the credit of a subscriber in the Fund may be withdrawn to meet—

(i) payments towards an insurance policy;

(ii) purchase of a single payment insurance policy;

(iii) payments of single premia or subscriptions to a family pension fund approved in this behalf by the Governor in Council;

Provided that no amount shall be withdrawn to meet any payment or purchase made or effected more than twelve months before the withdrawal.

4. (1) If the total amount of any subscriptions or payments substituted under clause (*a*) of rule 3 is less than the amount of the minimum subscription payable to the Fund under the rules, the difference shall be rounded off to the nearest rupee (eight-annas counting as the next higher rupee) and paid by the subscriber as a subscription to the Fund.

(2) If the subscriber withdraws any amount standing to his credit in the Fund for any of the purposes specified in clause (*b*) of rule 3, he shall, subject to his option under clause (*a*) of that rule, continue to pay to the Fund the subscription payable under the rules.

5. (1) A subscriber who desires to substitute a subscription or payment under clause (*a*) of rule 3 may reduce his subscription to the Fund accordingly:

Provided that the subscriber shall—

(*a*) intimate to the Account Officer on his pay bill or by letter the fact of, and reason for, the reduction;

(*b*) send to the Account Officer, within such period as the Account Officer may require, receipts or certified copies of receipts in order to satisfy the Account Officer that the amount by which the subscription has been reduced was duly applied for the purposes specified in clause (*a*) of rule 3.

(2) A subscriber who desires to withdraw any amount under clause (*b*) of rule 3 shall—

(*a*) intimate the reason for the withdrawal to the Account Officer by letter;

(*b*) make arrangements with the Account Officer for the withdrawal;

(*c*) send to the Account Officer, within such period as the Account Officer may require, receipts or certified copies of receipts in order to satisfy the Account Officer that the amount withdrawn was duly applied for the purposes specified in clause (*b*) of rule 3.

(3) The Account Officer shall order the recovery of any amount by which subscriptions have been reduced, or any amount withdrawn, in respect of which he has not been satisfied in the manner required by clause (*b*) of sub-rule (1) and clause (*c*) of sub-rule (2), with interest thereon at the rate which is levied on an advance from the Fund, from the emoluments of the subscriber and place it to the credit of the subscriber in the Fund.

6. (1) Government will not make any payments on behalf of subscribers to insurance companies, nor take steps to keep a policy alive.

(2) It is immaterial what form the policy takes, provided that it shall be on the life of the subscriber himself and shall (unless it is a policy expressed on the face of it to be for the benefit of his wife, or of his wife and children, or any of them) be such as may be legally assigned by the subscriber himself to the Secretary of State in Council.

(3) The policy may not be effected for the benefit of any beneficiary other than the wife of the subscriber or his wife and children or any of them.

7. (1) The policy, within three months after the first withholding of a subscription or withdrawal from the Fund in respect of the policy, or in the case of an insurance company whose headquarters are outside India, within such further period as the Account Officer, if he is satisfied by the production of the completion certificate (*interim* receipt), may fix, shall—

(*a*) unless it is a policy expressed on the face of it to be for the benefit of the wife of the subscriber, or of his wife and children, or any of them, be assigned, by an endorsement on the policy in the Form set forth in the First Schedule, to the Secretary of State in Council, as security for the payment of any sum which may become payable to the Fund by the subscriber under rules 8 to 10 and delivered to the Account Officer;

(*b*) if it is a policy expressed on the face of it to be for the benefit of the wife of the subscriber, or of his wife and children, or any of them, be delivered to the Account Officer.

(2) The Account Officer shall satisfy himself by reference to the insurance company, where possible, that no prior assignment of the policy exists.

(3) If the policy is not assigned and delivered, or delivered, within the said period of three months or such further period as the Account Officer may, under sub-rule (1), have fixed, any amount withheld or withdrawn from the Fund in respect of the policy shall, with interest thereon at the rate which is levied on an advance from the Fund, forthwith be paid or repaid, as the case may be, by the subscriber, to the Fund, or, in default be ordered by the Account Officer to be recovered by deduction from the emoluments of the subscriber, by instalments or otherwise, as Government may direct.

(4) Notice of assignment of the policy shall be given by the subscriber to the insurance company, and the acknowledgment of the notice by the insurance company shall be sent to the Account Officer within three months of the date of assignment.

NOTE 1.—Subscribers are advised to send notice of the assignment to the insurance company in duplicate, accompanied, in cases in which the notice has to be sent to a company in Great Britain or Ireland, by a remittance of five shillings, which is the fee for the acknowledgment authorised by the Policies of Assurance Act, 1867. The policy itself, bearing the assignment endorsed thereon, need not be sent to the Company, as insurance companies do not ordinarily require the production of the original instruments affecting a policy-holder's title until the policy becomes a claim.

NOTE 2.—Subscribers who proceed to Great Britain or Ireland on quitting the service are advised that under the English Stamp Law assignments or reassignments are required to be stamped within 31 days of their first arrival in those countries. Otherwise penalty will be incurred under the Stamp Act, and difficulties may arise when the policy matures for payment.

8. (1) Save as provided by sub-rule (2) of rule 10, when the subscriber—

(*a*) quits the service, or

(*b*) has proceeded on leave preparatory to retirement and applies to the Account Officer for reassignment or return of the policy, or

(*c*) while on leave, has been permitted to retire or declared by competent medical authority to be unfit for further service and applies to the Account Officer for reassignment or return of the policy, or

(*d*) pays or repays to the Fund the whole of any amount withheld or withdrawn from the Fund for any of the purposes mentioned in sub-clause (ii) of clause (*a*) of rule 3 and sub-clauses (i) and (ii) of clause (*b*) of rule 3, with interest thereon at the rate which is levied on an advance from the fund,

the Account Officer shall—

(i) if the policy has been assigned to the Secretary of State in Council under rule 7 reassign the policy in the first Form set forth in the Second Schedule to the subscriber, and make it over to the subscriber:

(ii) if the policy has been delivered to him under clause (*b*) of sub-rule (1) of rule 7, make over the policy to the subscriber:

Provided that, if the subscriber, after proceeding on leave preparatory to retirement, or after being, while on leave, permitted to retire or declared by competent medical authority to be unfit for further service, returns to duty, any policy so reassigned or made over shall, if it has not matured or been assigned or charged or encumbered in any way, be again assigned to the Secretary of State in Council and delivered to the Account Officer, or again be delivered to the Account Officer, as the case may be, in the manner provided in rule 7, and thereupon the provisions of these rules shall, so far as may be, again apply in respect of the policy:

Provided further that, if the policy has matured or been assigned or charged or encumbered in any way, the provisions of sub-rule (3) of rule 7 applicable to a failure to assign and deliver a policy shall apply.

(2) Save as provided by sub-rule (2) of rule 10 when the subscriber dies before quitting the service, the Account Officer shall—

(i) if the policy has been assigned to the Secretary of State in Council under rule 7, assign the policy in the second form set forth in the Second Schedule to such person as may be legally entitled to receive it, and shall make over the policy to such person;

(ii) if the policy has been delivered to him under clause (*b*) of sub-rule 1 of rule 7, make over the policy to the beneficiary, if any, or, if there is no beneficiary, to such person as may be legally entitled to receive it.

9. (1) Save as provided by sub-rule (2) of rule 10, if a policy assigned to the Secretary of State in Council under rule 7 matures before the subscriber quits the service and before his death, the Account Officer shall realise the amount assured, and shall deduct therefrom the whole of any amount withheld or withdrawn from the Fund in respect of the policy, with interest thereon at the rate which is levied on an advance from the Fund and shall place the amount so deducted to the credit of the subscriber in the Fund. The balance, if any, shall, at the option of the subscriber, be paid to the subscriber or placed to the credit of the subscriber in the Fund.

(2) Save as provided by sub-rule (2) of rule 10, if a policy delivered to the Account Officer under clause (*b*) of sub-rule (1) of rule 7 matures before the subscriber quits the service and before his death, the Account Officer shall make over the policy to the subscriber, who shall pay or repay to the Fund the whole of any amount withheld or withdrawn from the Fund in respect of the policy with interest thereon at the rate which is levied on an advance from the Fund, and, in default, the provisions of sub-rule (3) of rule 7 applicable to a failure to assign and deliver a policy shall apply.

10. (1) If—

(*a*) the interest of the subscriber in the family pension fund ceases from any cause whatsoever, or

(*b*) the policy lapses or becomes assigned, otherwise than to the Secretary of State in Council under rule 7, charged or encumbered,

the provisions of sub-rule (3) of rule 7 applicable to a failure to assign and deliver a policy shall apply.

(2) If the Account Officer receives notice of—

(*a*) an assignment (other than an assignment to the Secretary of State in Council under rule 7), or

(*b*) a charge or encumbrance on, or

(*c*) an order of a Court restraining dealings with—

the policy or any amount realised thereon, the Account Officer shall not—

(i) assign or re-assign or make over the policy as provided in rule 8, or

By notification No. 6424L.R., dated the 9th May 1931, published at page 566, Part I of the *Calcutta Gazette* of the 14th idem, it was announced, for general information, that the estimate of probable expenses to be incurred in respect of the repairs, maintenance and works connected therewith of the Jokee Embankment in the Contai subdivision of the Midnapore district, for a period of fifteen years, commencing from the 1st April 1931, amounted to Rs. 13,215 at the rate of Rs. 881 per annum. As required by section 63 of the Bengal Embankment Act, 1882 (II of 1882), this estimate was published locally with a general notice calling on all persons interested to prefer such objections as they might think proper to the Collector of Midnapore against that amount being fixed as the total sum payable.

2. In pursuance of that notice, six petitions of objections were filed by Nibhanani Dasi, Ramanath Maity and others before the Collector. The petitioners generally urge that their mauzas are not benefited by the embankment. The Governor in Council has carefully

considered the petitions and is satisfied that the petitioners' lands are benefited by the embankment and, therefore, rejects their objections.

ORDER—Ordered that a notification under section 63 of the Bengal Embankment Act, 1882 (II of 1882), fixing the sum of Rs. 13,215 as payable at an annual rate of Rs. 881 during the period of fifteen years, commencing from the 1st April 1931, by the zamindars of the estates benefited by the repairs, maintenance and works connected therewith of the Jokee Embankment, be published in the *Calcutta Gazette*, and that a copy of this resolution be forwarded to the Commissioner of the Burdwan Division for information and for communication to the petitioners concerned; also that a copy be forwarded to the Irrigation Department of this Government for information.

(2) Ships fitted with bridges shall carry a lifebuoy with a self-igniting light attached to it at each side of the navigating bridge in beckets or cleats in such a manner as to admit of instantaneous release and to ensure their dropping clear of the ship's side.

Other lifebuoy lights required under these rules shall be distributed, attached to lifebuoys, to the Surveyor's satisfaction.

(3) All lifebuoy lights required under these rules shall be capable of burning in water for at least 40 minutes. Lights fitted with prickers for opening shall not be accepted.

8. **Life-jackets.**—One approved life-jacket shall be carried for each person on board.

9 **Power to accept alternatives.**—The Governor-General in Council may, in general or in any particular case, accept any life saving appliance or arrangement in lieu of a life saving appliance or arrangement required by these rules subject to such conditions as he may impose.

10. **Classification of lifeboats.**—For the purposes of these rules lifeboats are arranged in the following classes:—

CLASS 1.

A.—*Open lifeboats with internal buoyancy only.*

The buoyancy of a wooden boat of this type shall be provided by watertight air-cases, the total volume of which shall be at least equal to one-tenth of the cubic capacity of the boat.

In the case of a metal boat an addition shall be made to the cubic capacity of the airtight compartments, so as to give it buoyancy equal to that of the wooden boat.

B.—*Open lifeboats with internal and external buoyancy.*

The internal buoyancy of a wooden boat of this type shall be provided by watertight air cases, the total volume of which shall be at least equal to seven and a half per cent. of the cubic capacity of the boat.

If the external buoyancy is of cork, its volume, for a wooden boat, shall not be less than thirty-three thousands of the cubic capacity of the boat; if of any material other than cork, its volume and distribution shall be such that the buoyancy and stability of the boat are not less than that of a similar boat provided with external buoyancy of cork.

In the case of a metal boat an addition shall be made to the cubic capacity of the airtight compartments, so as to give buoyancy equal to that of the wooden boat.

C.—*Pontoon lifeboats having a well deck and fixed watertight bulwarks.*

The area of the well deck of a boat of this type shall be at least thirty per cent. of the total deck area The height of the well deck above the water-line at all points shall be at least equal to one-half per cent. of the length of the boat, this height rising to one and a half per cent. of the length of the boat at the ends of the well.

The freeboard of a boat of this type shall be such as to provide for a reserve buoyancy of at least thirty-five per cent.

CLASS 2.

A.—*Open lifeboats having the upper part of the side collapsible.*

A boat of this type shall be fitted both with watertight air-cases and with external buoyancy, the volume of which, for each person which the boat is able to accommodate, shall be at least equal to the following amounts: —

	Cubic feet.
Air-cases	1·5
External buoyancy (if of cork)	0·2

The minimum freeboard of boats of this type is fixed in relation to their length; it shall be measured vertically to the top of the solid hull at the side amidships from the water-level when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts:—

Length of the boat in feet.	Minimum freeboard in inches
26	8
28	9
30	10

The freeboard of boats of intermediate lengths shall be found by interpolation.

B.—*Pontoon lifeboats having a well deck and collapsible bulwarks.*

All the conditions laid down for boats of Class 1C shall be applied to boats of this type, which differ from those of Class 1C only in regard to the bulwarks.

C.—*Pontoon lifeboats having a flush deck and collapsible bulwarks.*

The minimum freeboard of boats of this type is independent of their length and depends only upon their depth. The depth of the boat shall be measured vertically from the underside of the garboard strake to the top of the deck at the side amidships and the freeboard shall be measured from the top of the deck at the side amidships to the water-level when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts, which are applicable without correction to boats having a mean sheer equal to three per cent. of their length:—

Depth of boat in inches.	Minimum freeboard in inches.
12	$2\frac{3}{4}$
18	$3\frac{3}{4}$
24	$5\frac{1}{8}$
30	$6\frac{1}{2}$

For intermediate depths the freeboard shall be obtained by interpolation.

If the sheer is less than the standard sheer defined above, the minimum freeboard shall be obtained by adding to the figures in the table one-seventh of the difference between the standard sheer and the actual mean sheer measured at the stem and stern post; no deduction shall be made from the freeboard on account of the sheer being greater than the standard sheer or on account of the camber of the deck.

The collapsible sides or bulwarks of Class II boats shall be watertight.

11. (1) **Motor boats.**—A motor boat carried as part of the statutory life saving appliances of a pilgrim ship, shall comply with the following conditions:

(*a*) It shall comply with the requirements for a lifeboat of Class 1, and proper appliances shall be provided for putting it into the water speedily.

(*b*) It shall be adequately provided with fuel and kept so as to be at all times ready for use.

(*c*) It shall be fitted with an approved wireless telegraphy apparatus and a search light.

(*d*) The motor and its accessories shall be suitably enclosed to ensure operation under adverse weather conditions and provision shall be made for going astern

(*e*) The speed shall be at least 6 knots when fully loaded in smooth water.

(2) In fixing the volume of the internal buoyancy, and, where fitted, the external buoyancy, regard shall be had to the difference between the weight of the motor and wireless telegraphy installation and their accessories and the weight of the additional persons which the boat could accommodate if these were removed.

12. (1) **Construction of lifeboats.**—All boats shall be properly constructed, and shall be of such form and proportions that they shall have ample stability in a seaway, and sufficient freeboard when loaded with their full complement of persons and equipment. They shall be fitted and arranged to the satisfaction of the Governor-General in Council.

(2) The structural strength of the boats shall be to the satisfaction of the Governor-General in Council. In the case of pilgrim ships, launched on or after the 1st June, 1935, the strength shall be sufficient to permit of the boats being safely lowered into the water with the full complement of persons and equipment on board.

(3) **Seating accommodation.**—In all open boats, all thwart and side seats shall be fitted as low in the boat as practical, and shall provide seating accommodation for all persons the boat is deemed fit to carry and bottom boards shall be fitted so that the thwarts shall not be more than 2 feet 9 inches above them.

(4) **Buoyancy.**—Internal buoyancy apparatus shall be constructed of copper or yellow metal of not less than 18 ounces to the superficial foot, or of other durable material, and in open boats of Class 1 may be placed along the sides or at the ends of the boat, but not in the bottom of the boat. External buoyancy apparatus may be of cork or of any other equally efficient approved material: the use of rushes, cork shavings, loose granulated cork, or any other loose granulated substance, and the use of apparatus dependent upon inflation by air is prohibited.

(5) **Sheer.**—Open lifeboats of Class 1 shall have a mean sheer at least equal to four per cent. of their length.

(6) **Pontoon lifeboats.**—Pontoon lifeboats may be built of wood or metal. If constructed of wood, they shall have the bottom and deck made of two thicknesses with textile material between; if of metal, they shall be divided into watertight compartments with means of access to each compartment and shall be provided with at least two bilge pumps.

(7) All pontoon lifeboats shall be fitted with efficient means for quickly clearing the deck of water. The orifices for this purpose shall be such that the water cannot enter the boat through them when they are intermittently submerged. The number and size of the orifices shall be determined by the Governor-General in Council for each type of boat by a special test.

For the purpose of this test:—

(*a*) The pontoon boat shall be loaded with a weight of iron equal to that of its complement of persons and equipment.

(*b*) In the case of a boat 28 feet in length, two tons of water shall be cleared from the boat in a time not exceeding the following:—

Class 1C	..	60 seconds.
Class 2B	..	60 seconds.
Class 2C	..	20 seconds.

In the case of a boat having a length greater or less than 28 feet the weight of water to be cleared in the same time shall be for each type directly proportional to the length of the boat.

(8) No boat shall be accepted as a lifeboat the buoyancy of which depends upon the previous adjustment of one of the principal parts of the hull.

(9) All boats shall be fitted for the use of a steering oar.

(10) **Marking of lifeboats.**—All boats shall be permanently marked to the satisfaction of the Governor-General in Council in such a way as to indicate plainly their dimensions and the number of persons for which they are approved. Boats that have been properly marked need not be re-measured, unless there is reason to believe that the marks have been tampered with or are otherwise defective or improper.

(11) No boat may be approved the weight of which, when fully laden with persons and equipment, exceeds 20 tons and boats certified to carry 100 persons or more shall be motor boats.

13. (1) **Number of persons.**—The number of persons which a lifeboat shall be deemed fit to carry shall be equal to the greatest whole number obtained by dividing the capacity of the boat in cubic feet, or the surface of the boat in square feet, as the case may be (calculated as provided by rules 14 and 15), by the standard unit of capacity, or unit of surface, defined below.

(2) The cubic capacity in feet of a boat in which the number of persons is determined by the surface shall be assumed to be the ten times the number of persons which the boat is authorised to carry.

(3) The standard units of capacity and surface are as follows:—

Units of capacity.		Cubic feet.
Class 1A	..	10
Class 1B	..	9

Units of surface.		Square feet.
Class 2A	..	$3\frac{1}{2}$
Class 2C	..	
Class 1C	..	$3\frac{1}{4}$
Class 2B	..	

(4) The Governor-General in Council may accept a smaller divisor for pontoon boats of Class 1C and Class 2B, if he is satisfied after trial that the number of persons for whom there is seating accommodation in the boat in question is greater than the number obtained by

applying the above divisor provided always that the divisor adopted in place of 3¼ shall never be less than 3.

(5) The number of persons obtained by the above rules shall be reduced:—

(*i*) If it is greater than the number of persons for which there is proper seating accommodation, the latter number being determined in such a way that the persons when seated do not interfere in any way with the use of the oars, or

(*ii*) if, in the case of boats other than open boats of Class 1, the freeboard when the boat is fully loaded is less than the freeboard required by these rules.

(6) **Test afloat.**—If the Surveyor is doubtful as to the number of persons any boat is fit to carry he may require the boat to be tested afloat with the intended number of persons on board.

(7) The Surveyor may limit the number of persons to be allowed in boats with very fine ends and in boats very full in form.

(8) **Children.**—Two children under the age of twelve years may be carried in place of one adult person.

14. (1) **Cubic capacity of Open Boats of Class 1.**—In the case of an open boat of Class 1 the cubic capacity shall be determined by the following formula:—

$$\text{Capacity} = \frac{l}{12}(4A+2B+4C)$$

l denotes the *length* of the boat in feet from inside of the planking or plating at the stern to the corresponding point at the stern post; in the case of a boat with a square stern the length is measured to the inside of the transom.

A, B, C denote respectively the *areas of the cross-sections* at the quarter length forward, amidships, and the quarter length aft, which correspond to the three points obtained by dividing l into four equal parts (the areas corresponding to the two ends of the boat are considered negligible).

The areas A, B, C shall be deemed to be given in square feet by the successive application of the following formula to each of the three cross-sections:—

$$\text{Area} = \frac{h}{12}(a+4b+2c+4d+e)$$

h denotes the *depth* measured in feet inside the planking or plating from the keel to the level of the gunwale, or, in certain cases, to a lower level, as determined hereafter.

a, b, c, d, e denote the *horizontal breadths* of the boat measured in feet to the inside of the planking at the upper and lower points of the depth and at the three points obtained by dividing h into four equal parts (a and e being the breadths at the extreme points, and c at the middle point, of h).

(2) If the sheer of the gunwale, measured at the two points situated at a quarter of the length of the boat from the ends, exceeds 1 per cent. of the length of the boat, the depth employed in calculating the area of the cross-section A *or* C shall be deemed to be the depth amidships *plus* 1 per cent. of the length of the boat.

(3) If the depth of the boat amidships exceeds 45 per cent. of the breadth, the depth employed in calculating the area of the midship cross-section B shall be deemed to be equal to 45 per cent. of the breadth, and the depth employed in calculating the areas of the quarter length sections A and C shall be obtained by increasing this last figure by an amount equal to 1 per cent. of the length of the boat, provided that in no case shall the depths employed in the calculation exceed the actual depths at these points.

(4) If the depth of the boat is greater than 4 feet, the number of persons given by the application of these rules shall be reduced in proportion to the ratio of 4 feet to the actual depth, until the boat has been tested afloat with that number of persons on board all wearing life-jackets, and the test has proved satisfactory.

(5) The cubic capacity of a boat may be assumed to be the product of the length, the breadth and the depth multiplied by 0·6 in cases where it is clear that this formula does not give a greater capacity than that obtained by the above method. The dimensions shall then be measured in the following manner:—

Length: From the intersection of the outside of the planking with the stem to the corresponding point at the stern post or, in the case of a square sterned boat, to the after side of the transom.

Breadth: From the outside of the planking at the point where the breadth of the boat is greatest.

Depth: Amidships inside the planking from the keel to the level of the gunwale, but the depth used in calculating the cubic capacity may not in any case exceed 45 per cent. of the breadth.

In all cases the shipowner shall have the right to require that the cubic capacity of the boat shall be determined by exact measurement.

(6) If the oars are pulled in rowlocks, the bottom of the rowlocks shall be considered as the gunwale in measuring the depth of the boat.

(7) **Cubic capacity of motor boats.**—The cubic capacity of a motor boat shall be obtained from the gross capacity by deducting a volume equal to that occupied by the motor and wireless telegraphy installation and their accessories.

15. **Deck area and capacity of pontoon boats and of open boats of Class 2.**— In the case of pontoon boats and of open boats of Class 2 the surface in square feet shall be determind by the following formula:—

$$\text{Area} = \frac{l}{12}(2a+1\cdot5b+4c+1\cdot5d+2e)$$

l denotes the *length* in feet from the intersection of the outside of the planking with the

stem to the corresponding point at the stern post.

a, *b*, *c*, *d*, *e* denote the *horizontal breadths* in feet outside the planking at the points obtained by dividing *l* into four equal parts and sub-dividing the foremost and aftermost parts into two equal parts (*a* and *e* being the breadths at the extreme sub-division, *c* at the middle point of the length and *b* and *d* at the intermediate points).

16. **Size of boats.**—No boat carried in compliance with these rules shall have a capacity of less than 125 cubic feet.

17. **Weight of persons.**—In the tests prescribed by these rules for determining the number of persons which a boat can accommodate each person shall be assumed to be an adult person wearing a life-jacket.

In verifications of freeboard the pontoon boats shall be loaded with a weight of at least 165 lbs. for each adult person that the pontoon boat is authorised to carry.

18. (1) **Appliances for lowering boats.**—The davits shall be of approved form and shall be suitably placed to the satisfaction of the Governor-General in Council. They shall be fitted on one or more of the decks in such positions that the boats can be efficiently lowered from them, and shall be so spaced and placed that the boats can be swung out with facility. Davits shall not be fitted in the bows of a ship, but they may be fitted in any other position in the ship, provided that the boats are not brought into dangerous proximity to a propeller at the time of launching.

(2) The davits, falls, blocks, and all other gear required for lowering the boats, shall be of sufficient strength to the satisfaction of the Governor-General in Council. In the case of pilgrim ships launched on or after the 1st June, 1935, they shall be of such strength that the boats can be lowered safely with the full complement of persons and equipment, the ship being assumed to have a list of 15 degrees.

(3) In the case of pilgrim ships launched on or after the 1st June, 1935, the davits shall be fitted with gear of sufficient power to ensure that the boats can be turned out against the maximum list under which the lowering of the boats is possible, or the davits shall be of the quadrant or other such type as will ensure the above condition being fulfilled.

(4) The boat's falls shall be long enough to lower the boat into the water with safety when the vessel is light with a list of 15 degrees. Life-lines shall be fitted to the davit spans, and shall be long enough to reach the water when the vessel is light with a list of 15 degrees. Hooks shall not be attached to the lower tackle blocks.

(5) Means shall be provided for speedily, but not necessarily simultaneously or automatically, detaching the boats from the falls; the boats placed under davits shall be attached to the falls and kept ready for service; the points of attachment of the boats to the falls shall be sufficiently away from the ends of the boats to ensure their being easily swung clear of the davits; the boats' chocks shall be of such construction and arrangements as shall be satisfactory to the Governor-General in Council.

(6) Where more than one boat is served by the same set of davits, if the falls are of rope, separate falls shall be provided to serve each boat but where wire falls are used with mechanical appliances for recovering them, separate falls need not be provided.

The appliances used shall be such as to ensure lowering the boats rapidly in turn.

Where a mechanical appliance is fitted for the recovery of falls efficient hand gear shall also be provided.

(7) The Governor-General in Council may accept in lieu of davits or sets of davits any other appliance, appliances or arrangements, which appear to him at least as effective as davits for placing the boats in the water.

19. **Buoyant apparatus.**—Approved buoyant apparatus, whether buoyant deck seats, buoyant deck chairs or other buoyant apparatus, shall be deemed sufficient, so far as buoyancy is concerned, for a person or number of persons to be ascertained by dividing the number of pounds of iron which it is capable of supporting in fresh water by 32, and if the apparatus depends for its buoyancy on air shall not require to be inflated before use.

The number of persons to be supported shall be limited to the number of feet in the perimeter of the apparatus.

Such approved buoyant apparatus shall comply with the following conditions:—

(1) It shall be of approved material and construction.

(2) It shall be reversible and shall be effective and stable when floating either way up.

(3) It shall be of such size, strength and weight that it can be handled without mechanical appliances and, if necessary can be thrown from the vessel's deck on which it is stowed.

(4) The air-cases or equivalent buoyancy shall be placed as near as possible to the sides of the apparatus.

(5) It shall be marked in such a way as plainly to indicate that it is buoyant and the number of persons for which it is approved.

20. (1) **Stowing of boats, rafts, etc.**—All boats attached to davits and all boats stowed under boats attached to davits shall be stowed in such a way that—

(*a*) they can be safely launched in the shortest possible time;

(*b*) they will not impede in any way the prompt handling of any other of the lifeboats attached to davits or stowed under boats attached to davits or the buoyant apparatus carried under Rule 4 of the marshalling of the persons on board at the launching stations, or their embarkation;

(*c*) even under conditions of list and trim unfavourable from the point of view of the handling of the boats as large a number of persons as possible can be embarked in them;

(*d*) except as hereinafter provided, they shall be so stowed as not to require lifting before being launched and so secured that they will have the best chance of floating free from the ship in case there is no time to launch them.

(2) With regard to the stowage of other additional lifeboats and buoyant apparatus the following provisions shall apply:—

(*a*) They shall not impede in any way the prompt handling of the lifeboats attached to davits or the additional boats stowed under boats attached to davits or the buoyant apparatus or the marshalling of the persons on board at the launching stations or their embarkation;

(*b*) the lifeboats may be stowed one above the other, or they may, subject to such conditions as the Governor-General in Council may impose, be fitted one within another, but where boats so fitted require lifting before being launched, they shall only be permitted if attached to davits operated by mechanical power appliances;

(*c*) the lifeboats may be stowed in rows across a deck, bridge or poop;

(*d*) as large a number of the boats as possible shall be capable of being launched on either side of the ship, either by means of approved appliances for transferring them from one side of the deck to the other, or by stowing in rows across the deck, or by some other equally satisfactory means;

(*e*) means shall be provided to the satisfaction of the Governor-General in Council for lowering the lifeboats into the water in the shortest possible time.

(3) Where a boat is stowed underneath another boat there shall be provided approved removable supports or other approved appliances, so as to secure that the weight of a boat is not unduly supported by the boat underneath it.

(4) Boats may only be stowed on more than one deck on condition that proper measures are taken to prevent the boats from a lower deck being fouled by those from a deck above.

(5) All buoyant apparatus shall be so stowed as to be readily available in case of emergency.

21. (1) **Equipment for boats and buoyant apparatus.**—Every boat which is carried by any pilgrim ship shall be equipped as follows:—

(*a*) With the full single banked complement of oars and two spare oars, and a steering oar.

(*b*) With two plugs for each plug hole, attached with lanyards or chains, and one set and a half of thole pins or crutches attached to the boat by sound lanyards. Plugs shall not be required where proper automatic valves are fitted.

(*c*) With a sea anchor, a bailer, a galvanised iron bucket, a rudder and a tiller, or yoke and yoke lines, a painter of sufficient length, and a boat-hook. The rudder, the bailer, and the bucket shall be attached to the boat by sufficiently long lanyards, and kept ready for use.

(*d*) With a vessel or vessels capable of holding one quart for each person that the boat is deemed fit to carry. Each such vessel shall be kept filled with fresh water, and provided with a dipper with lanyard.

(*e*) With two hatches, one to be kept in each end of the boat, and to be attached to the boat by a lanyard.

(*f*) With a line securely becketted round the outside of the boat.

(*g*) With an efficient lantern trimmed, with oil in its receiver sufficient to burn eight hours; or with some other lantern or light at least as effective, approved by the Governor-General in Council.

(2) In addition to the equipment prescribed in sub-rule (1), the boats shall be equipped with:—

(*a*) A mast or masts, and at least one good sail and proper gear for each; but this does not apply to an approved motor boat.

(*b*) An efficient compass.

(*c*) An airtight case containing two pounds of biscuits for each person for whom the boat is approved.

(*d*) One gallon of vegetable or animal oil, and a vessel of approved pattern for distributing it on the water in rough weather. This vessel shall be capable of being attached to the sea anchor.

(*e*) One dozen self-igniting red lights in a watertight tin, and a box of suitable matches in a watertight tin.

(*f*) 1 lb. of condensed milk for each person the boat is certified to carry.

(3) All buoyant apparatus carried by a pilgrim ship shall be equipped as follows:—

(*a*) With two paddles and one boathook or two paddles and boathooks combined attached to the buoyant apparatus by lanyards.

(*b*) A painter of sufficient length.

(*c*) A line securely becketted round the outside of the apparatus.

(*d*) A self-igniting light and two signal flares of approved pattern, the self-igniting light to be attached to the buoyant apparatus by lanyards of suitable length:

Provided that on buoyant apparatus, designed to support less than twenty-five persons the paddles, boathook, light and flares need not be carried.

(4) All boats and buoyant apparatus shall be fully equipped before the ship leaves harbour and the equipment shall remain in the boat or buoyant apparatus throughout the voyage while the ship is at sea or shall be stowed in some convenient place where it will be immediately available in case of emergency.

(5) A motor boat need not carry a mast or sail or more than half the complement of oars but shall be provided with two boathooks.

22. **Side ladders.**—In every pilgrim ship approved rope ladders shall be provided at each set of davits.

Such ladders shall be of sufficient length to reach the waterline at the vessel's lightest sea going draft allowing for a list of 15 degrees and shall be carried in such a manner as to be always available for use in embarking the persons in the boats.

23. **Illumination.**—On all pilgrim ships in which the boat deck is more than 30 feet above the water, provision shall be made for the illumination from the ship of the lifeboats when alongside and in process of or immediately after being launched.

24. **Life-jackets.**—An approved life-jacket shall mean a jacket of approved material and construction, which is capable of floating in fresh water for 24 hours with 16½ lbs. of iron suspended from it, or any other approved appliance of equal buoyancy and capable of being fitted on the body. It shall be reversible and suitable both for adults and children. Life-jackets the buoyancy of which depends on air compartments are prohibited.

25. (1) (*a*) **Lifebuoys.**—An approved lifebuoy shall be of solid cork or other equivalent material. It shall be capable of floating in fresh water for at least 24 hours with 32 lbs. of iron suspended from it.

(*b*) Lifebuoys filled with rushes, cork shavings, granulated cork or any other loose granulated material, or whose buoyancy depends upon air compartments requiring inflation, are prohibited.

(2) All lifebuoys shall be fitted with beckets securely seized, and at least one on each side of the ship shall be fitted with a life-line at least 15 fathoms in length.

26. **Position of lifebuoys and life-jackets.**—All lifebuoys and life-jackets shall be suitably placed to the satisfaction of the Surveyor and so as to be readily accessible to all persons on board and their position shall be plainly indicated so that it may be known to those for whom they are intended.

Lifebuoys shall always be capable of being rapidly cast loose and shall not be rigidly secured in any way.

Life-jackets may be stored either in battens over the passenger decks or in boxes under the charge of serangs as well as in the buoyant seats when these are used. The contents of the boxes shall be clearly painted on them and illustrated notices in the vernacular shall be posted up in different parts of the ship explaining to passengers where to find life-jackets and how to use them. In addition, their use shall be demonstrated by the crew both during boat drills and periodically at other times.

27. (1) **Exemptions.**—Any lifeboat which forms part of the equipment of a pilgrim ship that was launched before the 1st June, 1933, and which has been inspected and approved by the Governor-General in Council before that date, may be accepted as equivalent to a lifeboat so long as it remains in good condition.

(2) Lifeboats which were ordered before the 1st June, 1933, in order to complete the equipment of ship, but which were not delivered in time to be inspected by the Governor-General in Council before that date, may be accepted as equivalent to lifeboats so long as as they remain in good condition:

Provided that such lifeboats shall not be so accepted, unless—

(*a*) they have been inspected, where this has not already been done;

(*b*) they would have complied with the requirements of the rules in force prior to the 1st June, 1933.

28. (1) When it appears to the Governor-General in Council, on the application of the owner of a pilgrim ship carrying more than 12 berthed passengers, that it is not practicable or reasonable to fit in that ship the number of sets of davits required by these rules, he may authorise under exceptional circumstances a smaller number of sets of davits provided that the number carried shall not be less than the minimum fixed in column B of the table in Rule 36 and that the capacity of the life-boats carried is at least up to the minimum capacity specified in column D of the table.

The owner of such a ship shall be required to satisfy the Surveyor by a practical test in his presence that all the boats carried can be launched in reasonable time, the number of hands employed in the operation not exceeding the total number of boat hands that will be carried on board under normal service conditions and each boat having, when lowered, at least two men on board and its full equipment.

(2) If it appears to the Governor-General in Council, on the application of the owner of any pilgrim ship that it is not practicable or reasonable in a particular case to require that pontoon

lifeboats, made before the 1st June, 1935, and carried on ships of which the keels were laid on or before that date, shall have the minimum freeboard specified in these rules or the bottom and deck made in two thicknesses with textile material between, the Governor-General in Council may in his discretion dispense with full compliance with the rules in these respects subject to such conditions, if any, as the Governor-General in Council may impose.

29. (1) **Manning of lifeboats, etc.**—Boat's crews shall be carried in all ships to which these rules apply on the following scale, namely:—

One officer or superior seaman rating and at least two other hands who shall be trained in the operations of launching and handling boats for each lifeboat required to be carried under the provisions of these rules and in addition one officer and six hands to clear away the buoyant apparatus carried.

(2) A man capable of working the motor shall be assigned to each motor boat.

(3) The officer or rating placed in charge of each boat shall have a list of its crew and shall see that the men placed under his orders are acquainted with their several duties and stations.

(4) The duty of seeing that the boats and other life-saving appliances are at all times ready for use shall be assigned to one or more officers.

30. **Lifeboatmen.**—From a date to be notified by the Governor-General in Council each lifeboat shall be in charge of a minimum number of lifeboatmen holding certificates of efficiency issued under the authority of a competent authority. In order to obtain the certificates, the men must prove that they have been trained in all the operations connected with the launching of lifeboats and the use of oars; that they are acquainted with the practical handling of the boats themselves; and further that they are capable of understanding and answering the orders relative to lifeboat service.

31. (1) **Muster List.**—The muster list shall assign duties to the different members of the crew in connection with:—

(*a*) the launching of the boats attached to davits;

(*b*) the preparation of the other boats;

(*c*) the equipment of the boats generally;

(*d*) the closing of the bulkhead doors, etc.;

(*e*) the mustering of the passengers.

It shall also assign to the members of the Stewards' Department their several duties in relation to the passengers at a time of emergency. These duties shall include—

(*a*) warning the passengers;

(*b*) seeing that they are dressed and have put on their life-jackets in a proper manner;

(*c*) assembling the passengers;

(*d*) keeping order in the passages and on the stairways and generally controlling the movements of the passengers.

(2) The muster list shall also specify definite alarm signals for calling all the crew to their boats and fire stations and shall give full particulars of the signals.

(3) Before the ship sails, the Master shall draw up and exhibit the muster list and the proper authority shall be satisfied that the muster list has been prepared for the ship and is posted in several parts of the ship and in particular in the crew's quarters.

32. (1) **Drill.**—In all ships to which these rules apply, a boat drill and a watertight door drill shall be held as soon as possible after leaving the original port of departure and thereafter once a week during the voyage when practicable, at which a number of the male passengers (*e.g.*, the single men) when this is practicable shall be mustered apart from the others in a convenient place whence they can be readily requisitioned to assist in swinging out boats or rounding up falls, etc., if required. Such drills shall be recorded in the official log book.

(2) The Surveyor shall be satisfied, in each case before the ship leaves port, that a return has been devised and communicated to each officer of the ship for securing an efficient working of the boats. In all cases a police system shall be organised to the satisfaction of the Surveyor so as to secure obedience to orders and proper control and guidance of all on board in times of emergency.

(3) In carrying out the boat and watertight door drills the crew will, when practicable, drill in their life-jackets and arrangements shall be made, when possible, for passengers to see the crew putting their life-jackets on. Entries in the official log book shall state whether and when this has been done.

33. **Emergency boat.**—In all pilgrim ships which are required under these rules to carry two or more boats, an emergency boat shall be carried slung out and ready for action whilst the ship is at sea.

34. **Boat-decks.**—Special boat-decks shall be kept entirely clear of passengers, and in the case of shade-decks, bridge-decks and poop-decks, which are utilized for carrying passengers as well as boats, a space sufficient for the working of the boats shall be railed off; and where boats stowed on a shade, bridge or poop-deck occupy half or more of the total breadth of the deck, the whole of the space abreast the boats shall be railed off and treated as a special boat-deck.

35. **Stowage.**—The stowage of boats and buoyant apparatus in any pilgrim ship shall not be passed by the Surveyor as complying with these rules unless he is satisfied that every part of the life saving equipment is readily available.

36. **Sets of davits and aggregate capacity of life-boats.**—The following table fixes according to the length of ship the minimum number of sets of davits to be provided in pilgrim ships and the minimum aggregate capacity of the lifeboats carried on board in accordance with these rules:—

STATEMENT OF OBJECTS AND REASONS.

It is admitted on all hands and also widely known that the waqf properties in Bengal form the most important source of wealth created for manifold charities and for the welfare of the Muslim community.

Muslim zamindars have been ruined, Badshahi grants have been resumed and Muslim families have been broken up under the operation of the Law of Inheritance. The result has been the widespread and appalling poverty that stands in the way of progress of the Muslim community of Bengal to-day. The Government aid is too inadequate to meet the scope of its demand for education, sanitation and culture. Besides, the community is too poor to bear any further burden of taxation. It is, therefore, high time that ways and means should be explored to cope with the situation.

The number of Muslim moneyed men that can come forward with large donations to meet the crying need is also very small.

The community is condemned for this deplorable poverty, whenever its rights and privileges are pressed in the University, in the Councils and in other public institutions and the donations of the Hindu moneyed men are compared to the ridiculously small contributions coming from the Muslim community.

Nevertheless there are waqf properties still in existence in Bengal, which if properly administered and the incomes thereof spent on legitimate purposes for which they had been created, the present disgraceful position of the community will be greatly relieved and its honour and dignity properly vindicated. If the waqf properties are properly administered for the real beneficiaries only for which they were dedicated initiative, industry and enterprise will develop and the community's wealth will be increased. This Bill contemplates to regulate and channel the use of waqf incomes into legitimate purposes and protect the interests of the beneficiaries.

Muslim Law vests the waqf property in God. The Crown exercises the rights as representative of God. It is, therefore, the duty of the Crown to preserve, protect, maintain, administer and improve the waqf properties.

But unfortunately in Bengal the Crown has not exercised its right of direct control to waqfs, the Muslim Law has conferred on it. Consequently the mutwallis have had their day. They have made much of the waqf properties. Most of them enjoy the incomes for themselves and often treat them as their own private properties. The result has been many waqf properties have passed into the hands of third persons and to the members of other communities.

This Bill contemplates to recover the waqf properties and set up a permanent and responsible machinery solely entrusted to develop and regulate the incomes and expenditure of the waqfs.

As everybody's business is nobody's business, members of the Muslim community seldom come forward to call the mutwallis into account. And there are other obvious reasons as well. The remedy by way of mutwalli suits for removal or accounting is protracted and most expensive. The present economic position of the community allows very few persons to risk the expenses and trouble involved in such suits. This Bill proposes to carry out the scheme of administration and recovery of waqfs through the waqf authorities which will take the place of the public with regard to the duty of supervision and control of waqfs and the mutwallis thereof.

The Act LXII of 1923 (the Mussalman Waqf Act) contemplates a remedy by way of calling the mutwallis into account to the District Judge. But the remedy is inadequate and the Act does not provide for the recovery and administration of waqfs. Besides, since 1923, the Act has not been put into operation in Bengal excepting that some attempts are being made by the District Judge of Rangpur. The District Judges have not yet been provided with the machinery to put the Act into operation. This Bill contemplates to cover much wider grounds than the Act XLII of 1923. It proposes to make the remedy real and effective by creating a new department under permanent authorities, to assert the rights of the Crown to the waqf properties and protect, maintain and improve them.

The Board of Waqfs will be solely entrusted to control and supervise the administration of waqfs. The Muslim public will not have to worry about litigation in civil courts as they have hitherto done, regarding waqf properties and the mutwallis.

The constitution of the Board has been framed so as to secure representation of various and wider interests.

Provisions have been made to make the department created under this Act self-supporting and create a large Consolidated Fund to meet the expenses for education of the Muslim community.

Care has been taken to see that the Muslim public should be able to take greater interest in waqf properties more frequently and with the least trouble and expenses

Provisions have been made for appeals, reviews and references so that nobody may be prejudiced.

This Bill proposes to establish a machinery which will be self-acting and at the same time in no way inferior to the authorities, who have hitherto decided and dealt with waqf cases.

The Bill only seeks to secure a proper administration of waqfs and to recover properties which were dedicated in waqf in the name of God.

It is to be noted, however, that in setting up the machinery contemplated under this Act, Government will have to incur certain initial expenditure recoverable later on from the Fund to be created hereunder.

STATEMENT OF OBJECTS AND REASONS.

Melas and fairs have been the recognised agencies to spread out many infectious and contagious diseases in the Presidency of Bengal It was only a few years back that a mela in the district of Nadia rapidly spread out cholera in all the bordering thanas and caused ravages in numerous villages. The necessity of making better provisions for the public health and sanitation with consequential medical and other needs have been long recognised by almost all the local authorities in the presidency, but beyond some, ineffective advices, the District Boards or municipalities or their Health Officers have been hitherto more or less helpless in the matter. Most of these melas and fairs fetch good income for their proprietors, but they have very little sense of responsibility in these matters.

With a view to afford the necessary sanitary and public health control, in the Health Officers which have now been appointed in all District Boards and in most of the municipalities in Bengal, they are being given the power to grant sanction for the holding of melas and without such sanction, no mela should be permitted. With a view to check any misuse of such power, there is provision made for applying to a Board against any order of the Health Officer, wherein the Chairman, the Vice-Chairman, the Civil Surgeon and one medical man nominated by the applicant shall sit to decide finally this matter. The Director of Public Health being ultimately responsible for the public health and sanitation in this presidency, ultimate power is also vested in him to permit any mela notwithstanding any order by the Health Officer or by the Board mentioned above.

On the breaking out of any serious epidemic endangering human safety, provision has been made in this Bill to move the Civil Surgeon and the District Magistrate to stop mela, should such a course be deemed necessary in the interest of public health. Other consequential provisions have also been made to make such order effective.

The settlement of public women in melas has come to be an acute social problem and provisions have been made to stop it and, if necessary, to eject such women from the melas and from the locality.

Provision has also been made to guard public health so that men with any infectious or contagious disease may not further spread out such disease by contact, with the sale of food or any other article and the notification of all such outbreaks in and around melas have been made a duty of all persons knowing the same. While this has been specially provided for operation in mela areas, it has been left at the option of the local authorities to permanently safeguard public health by applying this provision for all the year round in any or whole of such local areas. Ultimate power has been reserved in the Local Government to exclude the operation of the Act or any of its provisions from any cantonment, or any backward areas or to any other area where the operation of this Act may not be feasible for all practical purposes. A large congregation for a day on any festive or a religious occasion in any municipal area wherein nobody may in particular be responsible for the holding of such congregation or mela may be an instance in point.

It is hoped that with the growing sanitary consciousness of the people, the danger to public health will be realised by all to justify the placing of an act on the lines of this Bill in the Statute Book.

NOTIFICATION.

No. 2588L.—27th August, 1932. The following report of the Select Committee on the Bengal Motor Vehicles Tax (Amendment) Bill, 1932, with the Bill as amended by the Committee, is hereby published for general information.

Report of the Select Committee on the Bengal Motor Vehicles Tax (Amendment) Bill, 1932.

We, the members of the Select Committee of the Bengal Legislative Council, to which the Bengal Motor Vehicles Tax (Amendment) Bill, 1932, was referred by a motion carried in the Bengal Legislative Council on the 22nd August, 1932, have the honour to submit this our Report with a copy of the Bill, as amended by us, annexed. All matter omitted by the Select Committee has been printed in italics and enclosed in square brackets, and all new matter inserted has been underlined.

1. The Bill was published in the *Calcutta Gazette* on the 18th August, 1932.

2. The Committee met on the 24th August, 1932, and finished detailed consideration of the Bill at that meeting.

3. We do not consider that the Bill has been so altered as to require republication.

4. We recommend that the Bill as amended be passed by the Council.

5. The following are the principal changes made in the Bill :—

Clause 3 (*3*).—It is considered that the intention of sub-section (*2*) of section 4 of the Act should be made more precise. In the proposed new sub-section (*2*) it is made clear that the tax shall ordinarily be paid by the year, but power is given to the Taxing Officer to allow payments for quarterly periods. It is also made clear that in both cases the tax must be paid in advance.

Clause 3 (*5*).—The words "for any quarterly period or periods" have been omitted as unnecessary.

Clause 7 (*1*).—It is understood that clause *Fourthly* in this sub-clause does not precisely embody the intention. The intention is to give priority to payments for completing works for which payments have been made in a previous year under this section. It is considered that a provision on these lines is not strictly necessary, while its practical effect is doubtful.

As regards clause *Fifthly* it is realised that the contributions to local authorities provided for in clause *Fourthly* of section 11 of the Act may exhaust the fund and leave nothing for expenditure on the works which come under the head *Fifthly*, including Public Works Department roads. It is felt, however, that there are not sufficient grounds for taking away the priority which the former at present enjoy over the latter. If it becomes necessary to amend the Act to enable contributions to be made to the Howrah Bridge Commissioners this can more suitably be done by a different form of amendment.

Sub-clause (*1*) of clause 7 has accordingly been deleted.

Clause 7 (*2*).—It is not obligatory on the Local Government to refuse contributions when a local authority has failed to expend or to allot for expenditure the required amount. The words "or reduce" are therefore unnecessary.

Clause 8 (*1*).—Experience has shown that it is necessary that the Local Government should have power to make rules to require that tokens and certificates be kept in proper and legible condition.

Clause 11 (*4*).—The words "over-all" have been omitted in view of the words "area to be measured by wheel base × track" which occur at the end of Part II of the First Schedule.

The Committee of Management have the honour to report that throughout the year the standard has been fully maintained both as regards the number of exhibits in the collection and their condition. The garden again sustained a heavy loss in the death from verminous colic and enteritis of the female Indian rhinoceros, of which the mate, as reported in the last annual report, died from the effects of arsenical poisoning.

The specimen lived in captivity for 29 years and the Garden would have had no specimen of this important animal had it not been for the kindness of Her Excellency the Countess of Willingdon, who presented a very fine young male to the Garden, for which most welcome gift the cordial thanks of the Committee of Management and of the public are due to Her Excellency.

The following structural improvements were undertaken during the year:—

(1) *Quarters for the First Assistant Superintendent.*—This matter had been under consideration for some time, but for want of funds execution of the project had to be deferred. During the year under report the Overseer's quarters at the Kidderpore gate, which were lying vacant, were, after thorough repairs, additions and alterations, converted into suitable quarters for the Assistant Superintendent.

(2) *Raising the boundary wall.*—The boundary wall of the Garden along the Orphangunge Road and also between the Garden and the Observatory was found to be too low on account of the raising of the Orphangunge Road and the paddock, and experience proved that access over the wall was too easily accomplished. Portions of the wall between the Kidderpore gate and the Superintendent's quarters and between the Garden and the Observatory have been raised as necessary.

(3) *Improvement in the rhinoceros enclosure.*—Extensive improvements were made in the rhinoceros enclosure. The grounds were considerably raised and a cement wall 7 feet high and a trench 314 feet long and 20 feet wide constructed to prevent visitors from feeding these animals.

(4) The introduction of trench and wall in the paddocks in place of steel fencing having proved successful, it was extended by 294 feet. Advantage was taken to raise the adjoining low lands and to provide for proper drainage.

(5) The land lying in the western and eastern sides of the store godown, which was formerly insufficiently protected by fencing, has been enclosed by a brick wall 7 feet high.

(6) *Extension of the pheasant enclosure.*—To provide additional accommodation for the increasing number of pheasants, the existing pheasant enclosure was extended to the west by 36 feet.

(7) The terraced paths over the two bridges of the Garden required constant attention to keep them in order, and it was decided to dismantle them and substitute artificial stone flooring which should prove more permanent. This has been done.

Greater attention was paid to the general annual repairs to the buildings in the Garden, and repairs to iron and wood work were carried out as usual and painting to most of the houses was effected.

The grounds and gardens were maintained throughout the year in as good a condition as was possible. The grass lawns in front of the refreshment pavilion and the band stand were dug up, raked and rolled and *doob* grass planted.

The display of flowering annuals, specially the dahlias, was very successful and the Garden was awarded several prizes and certificates for exhibits at the flower shows held by the Agri-Horticultural Society of India

The financial condition of the Garden, notwithstanding the fall in the entrance receipts owing to present economic depression, may be considered as satisfactory on the whole.

The following is a comparative statement of visitors and receipts for the last four years:—

Visitors.			Receipts.	
			Rs.	A.
1928-29—1,136,910	..	..	78,333	0
1929-30—1,109,901	..	..	75,609	3
1930-31—979,604	..	..	66,082	13
1931-32—928,501	..	..	62,141	6

A large number of children under four years of age and school children, attended by their teachers, were admitted free.

In addition, 48,542 persons visited the Garden on free days. A detailed statement of the number of visitors and receipts appears in Appendix B.

In consequence of the gradually diminishing gate receipts during the Fancy Fair days when the admission fee was one rupee per head, arrangements were made to keep the Garden, excluding the Fancy Fair, open to visitors who did not wish to visit the Fancy Fair, at the ordinary charge of one anna. The experiment proved successful and the turnstiles recorded 15,984 one-anna visitors while 6,071 people visited the Fancy Fair on 31st December 1931 and 1st January 1932.

The thanks of the Committee are due to those ladies and gentlemen who have added to the zoological collection, a list of which is given in Appendix C. Thanks are also due to those who kindly offered to present animals to the Garden, but whose offers could not be accepted either because the particular species was already sufficiently well represented or owing to want of accommodation.

The Committee also desire to express their thanks to the following Railway and Steamer Companies for kindly conveying the animals belonging to the Garden free of charge:—

East Indian Railway, British India Steam Navigation Co., Ltd., Peninsular and Oriental Steam Navigation Co., through Messrs. Mackinnon, Mackenzie and Co., and River Steam Navigation Co., Ltd., through Messrs. Macneill and Co., and Messrs. Hoare, Miller and Co., and Lionel Edwards, Ltd.

The Corporation of Calcutta sanctioned a grant of Rs. 26,233-6 to the Garden for the year under report, and the amount of the rate bills in respect of the Garden was adjusted against the sanctioned grant as the rate bills fell due. The Committee desire to take this opportunity or expressing their renewed thanks to the Corporation of Calcutta for their generous contribution to the funds of the Garden.

Thanks are also due to the Officer Commanding and Officers of the 1st Battalion, 5th Mahratta Light Infantry, stationed at Alipore, for permitting their regimental band to play at the Garden on Tuesday afternoons, free of charge, and to Lt.-Col. G. C. B. Buckland, Officer Commanding, 1st Battalion, 8th Gurkha Rifles, for his kindly allowing his band to play at the Garden free one day in the week from 18th December 1931 to 22nd January 1932.

The Committee are much indebted to those members of the public who send old and broken-down horses to the Zoological Garden, where they are disposed of under the most humane conditions.

P. L. BUCKLAND,
President.

E. H. MARSHALL,
Honorary Secretary.

Superintendent's Report.

I have the honour to submit my report on the condition and progress of the zoological collection.

The following comparative table shows the numbers of the various collections during the last four years:—

Year.	Mammals.	Birds.	Reptiles.
1928-29	342	1,196	173

The health of the animals was satisfactory and the high standard of the collection has been maintained by the addition of many interesting animals, and all available space is filled to its utmost capacity.

The male Indian rhinoceros calf kindly presented to the Garden by Her Excellency the Countess of Willingdon has filled a serious gap in the collection. Resolution on the Report on the Police Administration of the Bengal Presidency for the year 1931.

GOVERNMENT OF BENGAL.

Police Department.

RESOLUTION—No. 4057Pl.

CALCUTTA, THE 29TH AUGUST, 1932.

Read—

The Report on the Police Administration of the Bengal Presidency for the year 1931.

Mr. T. J. A. Craig, C.I.E., held the office of Inspector-General of Police throughout the year.

2 **Eastern Frontier Rifles.**—The Eastern Frontier Rifles maintained their reputation as a unit reliable in any emergency, and the work of the detachments sent to Chittagong district was invaluable. The Governor in Council congratulates the battalion on its efficiency and devotion to duty in trying circumstances. It is gratifying to note that the good service of Subadar Major Ganesh Bahadur Chettri was recognised by the award of the Membership of the Order of the British Empire.

3 **Recruitment and Health of the Force.**—The number of constables recruited was 2,159 against 1,899 in 1930, while the total number of vacancies at the end of the year was 56 against 146, 206 and 377 in the three previous years. The only force of additional police under section 15 of the Police Act was one of 120 men quartered in certain areas in Chittagong district. The additional police employed elsewhere at the commencement of the year were withdrawn, some on the expiry of the period for which they were sanctioned, others as a result of the Irwin-Gandhi agreement of 5th March.

An important addition to the Range Reserves of armed police was made during the year in the shape of a temporary force of 945 constables with their complement of officers, in order to meet the disturbed conditions which resulted from the civil disobedience movement. The additional force of 500 men mentioned in last year's resolution was merged in this force.

It is regrettable that the experiment of enrolling Namasudras in the armed branch has not so far given satisfactory results, but it is being continued.

Casualties showed a decrease under all heads and the percentage fell from 7·6 in 1930 to 5·7 in the year under review, the lowest figure recorded since 1912. His Excellency in Council notes with satisfaction that there was a marked drop in the number of resignations and that there was again an increase in the number of constables of three years' service and over, there being at the close of the year 15,969 such or nearly 500 more than in the previous year.

Admissions into hospitals increased from 13,244 in 1930 to 14,390 in the present year, partly owing to extra work and extra strain, partly to men having to be kept for prolonged periods in unhealthy places often in temporary and unsuitable quarters, and partly owing to indifferent housing conditions. It is regrettable that housing conditions cannot be improved at present, owing to financial stringency.

4. **Discipline.**—His Excellency in Council notes with pleasure that, in spite of the extra duties imposed on the force during the year, its discipline was maintained at a high standard. There was a marked decrease in the number of officers and men judicially punished as well as in the number dealt with departmentally. The number of complaints instituted against the police by private individuals fell from 368 in the previous year to 253, and only 18 cases ended in conviction.

5. **Crime statistics.**—There was a decrease in the number of cognisable and true cases, but the number of serious offences against persons and property showed an increase of 1,156. There were 1,212 cases of rioting against 1,608 last year, but the number of cases of murder, robbery and dacoity increased. This increase in serious crimes is attributed to the distress resulting from trade depression and to the civil disobedience and other movements which created a spirit of lawlessness among the people.

Thefts of arms remained at a high figure and showed a slight increase over last year's figure, the largest number being reported from Mymensingh.

6. **Criminal Tribes.**—The conduct of the inmates of the Karwal Nat Settlement at Saidpur was good on the whole, and the industrial school for children at Nilphamari continued its good work, but the subsequent placing and employment of the children still presents a very difficult problem.

7. **Working of the Rural Police.**—Efforts to seduce them from their allegiance continued at least in some districts during the year, and economic and other causes combined too often to make the payment of chaukidars' salaries irregular, yet in spite of these adverse circumstances the rural police remained as a whole loyal. Several instances of bravery and devotion to duty are recorded by the Inspector-General, notably that of the dafadar in Dacca, who, though mortally wounded in arresting a notorious criminal, held on to his man till help arrived, and the chaukidar in Midnapore, who was killed while attempting to arrest a man in the act of committing dacoity.

It is disappointing to read that in spite of all efforts little real improvement was achieved in the matter of securing co-operation between the police and union boards in exercising control over known criminals and the patrolling of affected areas.

8. **Revolutionary crime.**—The Governor in Council has read with great interest and strongly recommends for perusal by the public the informatory survey of the history of terrorist crime in Bengal since 1907, which is set out in Part VII of Mr. Farmer's report. During 1931 terrorist crimes and activities were a source of continuous anxiety and no less than 67 outrages were committed together with 9 murders including those of Messrs. Peddie, Garlick and Stevens of the I.C.S., and Khan Bahadur Ahsanullah, Inspector of Police. The seriousness of the position led to the promulgation in October of Bengal Ordinance IX of 1931, which extended the scope of the Bengal Criminal Law Amendment Act, 1930, so as to permit of action being taken against members and helpers of terrorists' associations. To deal with the situation in Chittagong, where a considerable and very active body of absconders of the Raid Case remained at large, Ordinance XI of 1931 was promulgated on 1st December, which gave wider powers to the executive and also provided for more speedy trials of cases connected with the revolutionary conspiracy. To implement the Ordinance a body of regular troops and increased police forces were drafted into the district.

9. **General.**—The outstanding features of the year were the general spirit of lawlessness which was an aftermath of the civil disobedience movement, the activities of the terrorists and the widespread economic distress in the country. These conditions naturally placed a heavy strain on the police His Excellency in Council takes this opportunity of congratulating the force on their devotion to duty, their fortitude in the face of danger and their cheerful endurance of hardship in trying circumstances.

It is regrettable to have to record that six members of the force, including that valued officer Inspector Ahsanullah of Chittagong, were killed and 140 injured in the course of the year in the execution of their duty

10. **Commendation of Officers.**—His Excellency in Council has read with pleasure the names of the officers brought to his notice by the Inspector-General of Police and records his high appreciation of the valuable services rendered by them to the State during the difficult conditions of the past year

Particular credit is due to Mr T. J. A. Craig for maintaining the discipline and efficiency of the force at their usual high standard during a year the conditions of which, if somewhat less fraught with danger and anxiety than 1930, were very far removed from normal.

ORDER.—Ordered that copies of the resolution be forwarded to the Inspector-General of Police, Bengal, the Commissioner of Police, Calcutta, and all Commissioners of Divisions for information.

Ordered also that the resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

H. J. TWYNAM,
Chief Secy. to the Govt. of Bengal (offg.).

Printed at the Bengal Government Press, Alipore, and published by the Bengal Secretariat Book Depot, Writers' Buildings, in the City of Calcutta, on the 1st September 1932.
